VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING. MAY 9, 1895. NO. 19

DETASTATED BY A CYCLONE.

An Awful Storm Strikes Sioux Centre —Many Persons Are Killed and Injured.

Sioux City, Ia., May 3.—Sioux county was devastated by a terrific cyclone this afternoon. The storm came from the northwest and struck Sioux Centre, a small town forty-five miles north of this point, at 4 o'clock. Telegraphic reports from the scene of the storm are very meagre, the wires being down, but it is understood that a considerable number were killed and injured. The first reports were received by the Sioux City and Northern railroad from their agent at Sioux Centre. The dispatch read: "Cyclone passed three miles northwest of here. School house near town was blown down, teacher killed and several children killed and injured. Exact number and names have not yet been learned. Whole country in the track of the storm devastated. Sioux City and Northern tracks between Perkins and Doon washed out for several miles."

Dispatches from Sioux Centre at 8.30 say that three school houses and at least twenty residences and barns near that place were swept away. At the school houses two teachers and three pupils were killed and many injured. Two women were found dead, about 6 o'clock near where one of the school houses stood. One man who arrived in Sioux Centre late in the evening, reported that his home was blown away and his family killed. He himself escaped and says at least 100 people must have been killed. Parties have been sent out from Hull, Sioux Centre and Orange City, the laboring towns, but work is being carried on in total darkness and in the midst of a tremendous wind and rain storm. It is consequently progressing slowly.

A number of bodies have already been recovered, although the exact number cannot be learned. Everyone is violently excited, and definte accounts cannot be obtained. It is said that Perkins, a small town between Sioux Centre and Doon, was directly in the path of the storm, and was entirely wiped out.

Squire McNamara Suicides.

Houtzdale, Pa., May 6.—Squire Robert McNamara, of this place, was found lying dead on the floor of his office at 9.30 this morning, by S. McFadden. He had committed suicide, having placed the muzzle of a revolver in his mouthand discharged the weapon, the ball coming out at the top of his head. The squire had been last seen alive on Friday evening and he probably suicided that night or Saturday morning. He had been drinking very hard of late and this was probably the cause of his terrible deed. McNamara was about 70 years of age and is survived by a wife and seven adult children.

Philadelphia Mint Appointment

Washington May 7.—The president this afternoon appointed H. Kretz of Reading, Pa., to be superintendent of the Philadelphia mint, vice Townsend, resigned, and W. E. Morgan, of Philadelphia to be coiner in the same mint, vice Steel, resigned. Mr. Kretz is the present appointment clerk of the treasury department, and Mr. Morgan is now an examiner in the mint bureau of the treasury department. These appointments have been previously indicated in these dispatches.

He Was Very Foolish.

San Francisco, May 7.—G. F. Watson committed suicide yesterday at the home of his brother-in-law, J. A. Sargent. Watson was engaged to marry Miss Amy Minor of Providence, R. I., with whom he had corresponded since boyhood. From her parents Miss Minor inherited $30,000 and she had also an income from the estate of another deceased relative. It is believed by Mrs. Sargent, who is a sister of Watson that Miss Minor's wealth led him to think himself unsuited to her, he being comparatively poor.

For a New Constitution.

Dover, May 7.—The General Assembly has passed a bill providing for a constitutional convention. Each county is to have ten delegates and they will be chosen in November, 1896. The convention wil meet one month later. In 1898 the adoption or rejection of the new constitution will be submitted to the people of the state at the polls. The General Assembly recommends that the two political parties diyide delegates equally between them.

Many Men Quit Work.

Chicago, May 7.—Twelve hundred men employed in the blast furnaces department of the Illinois Steel Company mills at south Chicago, quit work this morning. Two furnaces are shut down as a result, and the strikers expect that they have sympathizers enough to spread the disaffection to other departments. Two years ago the men claim that they were being paid $2.10 a day for work that they now do in twelve hours for $1.60.

THEY WERE DISCOVERED.

A Woman the Cause of a Tragedy in New Orleans Yesterday.

New Orleans, May 5.—A fearful tragedy was committed here to-day. An injured husband caught his erring wife in bed with a man. Simultanously the men drew pistols, a number of shots were exchanged and in a minute one man lay on the bed gasping from mortal wounds, and the other was on his way to a police station in charge of an officer. The woman in the case was not hurt.

The three actors in the tragedy were Dr. Samuel P. Swain and wife and Dr. Emile Hirart, all of Plaquemine. La. Dr. Hirart and Mrs Swain arrived here on Friday and registered at a house on Liberty street as C. J. Smith and wife. They remained in their room, scarcely leaving it for longer than half an hour at a time. This morning Dr. Swain, who had followed his wife and her lover, entered the place by a side door and made his way to the room occupied by the pair. He drew his pistol and fired five shots, while the man who was killed fired six shots, none of them hitting Dr. Swain. The latter immediately ran out of the house right into the arms of a policeman. The doctor was placed under arrest and carried to the police station. The police sergeant then quickly went to the scene of the shooting to ascertain the extent of the wounded man's injuries. When the sergeant reached the place the man was still alive and a physician who was called in as soon as possible was attending him. The physician said that the case was hopeless, and while he was talking the man expired.

The woman who was the cause of the trouble was seated by the bed where the wounded man lay. She was fully dressed and remarkably cool. She said she was S. T. Swain, but would not state whether or not the man who did the shooting was her husband, and refused to give the name of the dead man. All she would say was that she was a doctor and came from one of the parishes. She demanded to be taken to the police station at once. She was taken there, but resolutely refused to say anything, except that she would speak in court only. She was held as a material witness.

From Dr. Swain it was learned that the intimacy between Mrs. Swain and the dead man was of long standing and told an interesting story of his troubles. He said that about two months ago, in Iberville parish, he and Dr. Hirart met on the public road and had a shooting affair in which neither was hurt. Dr. Swain expressed pleasure when informed that his man was dead. The woman in the case is about 26 years of age and by no means attractive. It is amazing that a man should be shot to death for so plain a female. At the head of the bed in which the man was killed was a book, the title of which was "Her Last Lover."

American Mechanics Elect Officers.

Scranton, Pa., May 7.—The state council, United American Mechanics, met in annual session in this city to-day, State Councillor R. M. Johnston, of Pittsburg, presiding. Nominations for state officers were made during the morning and the election will take place to-morrow. The only nominee for state councillor is H. O. Holstein, of Harrisburg. The following for other offices are unopposed: State secretary, Walter Graham, of Philadelphia; treasurer, Charles H. Kurtz, of Philadelphia; national representative, Dr. R. A. Walker, of West Monterey. Chambersburg, Reading, Shamokin, Philipsburg and Bellefonte are to be voted upon as the place of next meeting. The support of the state body was pledged to the official organ, The Mechanics' Advocate. The afternoon was largely devoted to reports. Final adjournment will occur on Thursday at noon.

A Sensational Failure.

St. Cloud, Minn., May 5.—N. P. Clarke & Co.'s assignment papers, which were filed five minutes before the clerk's office closed last evening, are the sensation of the hour here. The liabilities will probably reach $1,000,000. The value of the assets given at $1,250,000 is problematical. The place of business of the firm is in Minneapolis, where it has mills. It has until lately been regarded as one of the wealthiest in the state. Mr. Clark was the owner of the finest stud of Clydesdale horses in the world and is known to the blooded stock dealers all over the country. His horses have now been mortgaged to secure large depositors in the bank.

Death of Col. Young.

Harrisburg, Pa., May 5. — Colonel James Young, of Middletown, one of the most extensive farmers in Pennsylvania, died at his home Saturday morning. He was thrown from a carriage on Thursday evening and the shock resulted in his death. He was in his 75th year. Colonel Young was identified with many of the banking and other interests of this part of the country, and left a large estate.

A BIG EVENING'S WORK.

Council Held a Two Hours' Session and Transacted Considerable Business.

Council convened Monday evening at 7.30 o'clock with members Gerberich, Hillibish, Beaver, Brockerhoff, Brackbill and Bush in their respective places and President Miller in the chair. Clerk Isaac Mitchell read the minutes of the previous meeting which were approved as read.

James Parks was present and asked that council pay him for 26 hours work, at 12½ cents per hour, done for R. McCafferty & Son, as the latter was not able to pay him at this time.

Secretary of the Board of Health, H. C. Quigley, Esq., was present to present a resolution from the Board asking that a committee be appointed to examine into the condition of the sewerage system surrounding the big spring and see that the same is put in a safe sanitary condition.

A written communication was received from R. McCafferty & Son, asking for a payment of $125 on account of the abutments of Lamb street bridge.

A communication was received from G. H. Harmon asking that a water pipe nuisance in the Bayard property occupied by him, be abated.

The Street committee reported streets in a fair condition. That considerable work has been done in the moving of dirt from the streets, etc., and that the diamond has been well filled with broken stone, and the committee asked of council an expression of opinion as to the best kind of covering to put on the stone. It was found impossible to locate a sewer under the diamond to carry water from jail hill and give it a sufficient depth covering, and yet that was the only way the water could be handled. Several sewers were repaired, the old bridge removed, a foot bridge erected there for the convenience of travelers, and especially the school children going from Thomas street to the stone school house. The committee suggests an ordinance to prevent all persons from throwing garbage on the streets. A number of boardwalks were reported in bad condition and as needing immediate repairs.

The Water committee reported the pumps running one hour less than they were two weeks ago. The fountain has been repainted, a leak repaired on Bishop street, a hydrant cut off on Howard street a new and larger connection made with the *Watchman* office motor, a request from W. V. Emory for water for four houses in Spring township, a donation of a carload of crushed limestone from the Central Pennsylvania railroad company for use around the spring; $10.00 worth of plants ordered for the same; that the water assessor has almost completed the assessment and that the committee recommend the hours between 5 a. m. and 7 p. m. as the proper time for sprinkling.

The Fire and Police committee had no report to make.

The Market committee reported the market opened last Saturday with four or five wagons in attendance. The committee also reported the butchers still kicking over the meat hucksters.

The Nuisance committee reported a nuisance in force out near the car works, in the shape of a very offensive chicken coop.

The Finance committee reported a balonce due the borough treasurer of $10,273.94.

Rev. J. P. Hughes came in late and at this juncture made complaint of the nuisance of so many cows running at large around the Academy and ruining the grounds. Mr. Hughes wanted to know what rights he had in the premises—if he could milk the cows if he wanted to, or if he had to if he didn't want to. He thinks for the amount of work he has to do, he should have some kind of a reimbursement. He don't want the cows, because, he says they prove to be elephants on his hands. Mr. Hughes also asks for a boarkwalk on the west end of Logan street.

Dr. M. A. Kirk was present to ask for the grade of Thomas street. Also as to the proper width for pavements.

Superintendent Gephart appeared in relation to the water rental charged the Central Railroad of Pennsylvania by the borough. Mr. Gephart thought the $150 asked was entirely too much, compared with the amount of water used. Mr. Gephart thinks that as the Central railroad company does not use more than one-tenth the water the Pennsylvania company does they should not be asked to pay one-half the amount the latter company pays.

Mr. Bradley appeared to again make complaint in regard to the walk along the property of Mr. S. S. Lyon, he also made complaint in regard to the condition of North Spring street.

The request of James Parks for the payment of his labor bill of R. McCafferty & Son was refused.

The request of the Board of Health for an investigation of the sanitary condition surrounding big spring was referred to the Nuisance committee for investigation and report at the next meeting.

The Street Committee presented an ordinance for the opening of South Potter street from the West side of Thomas street to the borough line and, after the same was read by the clerk, on motion of General Beaver, it was ordained and adopted.

The complaint of George Harman was referred to the Water committee.

In regard to the request of R. McCafferty & Son, on motion of General Beaver, the clerk was instructed to reply that council would make payment in exact accordance with the agreement—on estimates of work done as furnished by the engineer in charge.

The question of the hours for sprinkling, as recommended by the Water committee was established at between 5 a. m. and 7 p. m.

Regarding Prof. Hughes' complaint about the cows, council considered that he had been fully answered in the advice of the borough solicitor to pen up the cows, advertise the same for sale, and keep his pay out of the receipts.

The request of Dr. M. A. Kirk regarding Thomas street was referred to the Street committee with power to act.

Mr. Bradley's complaint as to the walk along Mr. Lyons' property, the same was referred to the Street committee.

Dr. M. A. Kirk also asked permission to put down a terra cotta pipe on Thomas street—the same to be put down by the residents of that thoroughfare. This matter was also referred to the Street committee.

The matter of the water contract with the Central Railroad company of Pennsylvania was then taken up and the previous question placing the amount at $150 reconsidered, after which on motion of Mr. Brockerhoff it was agreed to accept the company's offer of $75 per year.

There still being one additional light to be placed in the West ward the councilmen from that locality recommended that the same be placed on St. Paul street, near the A. M. E. church. The Street com. was directed to have the same put at the place designated.

Burgess W. E. Gray appeared before council to ask information regarding the erection of booths on the streets during the coming centennial, as many persons are daily applying to him for that privilege. On motion the matter was left entirely with the Street committee and the Chief Burgess with power to make such disposition as they deem right and just.

No other special business being before the council the following bills were approved and council adjourned:

Joseph McSuley, painting fountain	$3.00
Water Pay Roll	88.47
Atlantic Refining Co	15.66
Bits Fuel & Supply Co. coal	95.82
Electric Light Co. streets	278.25
R. J. Miller, quarrying stone	119.75
Street pay roll	54.75
R. McCafferty & Son	38.56
Electric Light Co. lockup	4.70
Police pay roll	35.00
Isaac Mitchell, clerk	12.50
Borough Auditors	45.00
J. Thomas Mitchell	21.50
Keystone Gazette, Auditor's Statement	26.00
F. A. & M. L. McManus, tax rebate	12.76
Total Amount	$851.72

The Fire Fiend's Work.

New Carlisle, O., May 6.—At 11 o'clock last night fire broke out in Charles Gardner's livery stable and spread so rapidly that in half an hour the business portion of the town was enveloped in flames. The fire was thought to have been the work of an incendiary. The Springfield fire department was called upon and arrived about midnight. At 2 o'clock the fire was under control.

The following buildings were among those destroyed: The town hall, including the mayor's office and police headquarters. All the township records were burned; insurance, $4,000; Staley's hotel, insurance, $3,500, the general opera house and Max Holtzmiller's bakery. While Holtzmiller was trying to save his goods he was caught by the flames, and before he was rescued he received terrible burns. His injuries are pronounced fatal. The property loss is estimated at $75,000.

Japan Backing Down.

London May 6.—The St. James Gazette prints a despatch from Paris saying that Mr. Sone Arasuke, the Japanese minister to France, yesterday informed M. Hanotaux, minister of foreign affairs, that Japan in deference to the friendly advice of the protesting powers, had renounced her claim to permanent possession of the Liao Tung peninsula, including Port Arthur.

A City Treasurer Suicides.

Butte, Mon., May 6.—Simon Jacobs, the retiring city treasurer, committed suicide this morning by shooting himself. The term of Jacob's office expired to-day and it is reported that he is short in his accounts $30,000 or $34,000.

FIERCE FOREST FIRES.

They Continue to Rage in the Vicinity of Bradford.

Bradford, Pa., May 6.—The forest fires in this section of the state are still raging and much damage is being done. The woods along the Erie railroad, between Ketner and Bradford are on fire, and it is feared the loss of oil and lumber property will be great. Fires are raging between Rixford and Farmersville on valuable timber lands and large quantities have been destroyed. The Columbia Oil company's property is now threatened. Between Crawford Junction and Riter Valley a fierce fire is raging on both sides of the Erie tracks. Great damage has been done between Gallagher and Hutchins. A fire has been in progress at Chipmunk since Thursday, and several oil well rigs were destroyed. Between Smethport and Rew City the woods are on fire in several places. but no damage has been reported.

Everything in the woods is as dry as tinder, and the leaves and underbrush furnish abundant fuel for the blaze. The flames are going up the hillside at a rapid rate and destroying everything in their path. The sky is black with a stifling smoke and the flames shoot up as high as the tops of the trees.

Those Income Tax Cases.

Washington, May 6.—The reargument of the income tax cases began in the supreme court of the United States to-day in the presence of an assemblage of law and laity that, as on the occasion of the original argument, more than exhausted the accommodations of the small chamber in which it was heard. For the first time since last November there was a full complement of justices on the bench, and all nine of the large leather-covered arm chairs behind the desk that separated the court from the spectators were occupied. Mr. Justice Jackson sat at the extreme right of the chief justice. He took an active interest in the proceedings and there was apparently nothing to warrant the expectation that he might not be able to undergo the fatigue of the hearing. W. D. Guthrie opened the argument for the petitioners, Messrs. Hyde and Pollock who seek to enjoin the directors of the farmer's loan and trust, and Continental Trust company, of New York, from paying the tax on the dividends declared on the stock of those corporations, and in so doing attack the constitutionality of the law. The discussion of the case was limited by the court to two counsel on each side, and the time was fixed at five hours on each side.

Shortlidge Gives $5,000 Bail.

Chester, Pa., May 6.—The case of Professor Swithin C. Shortlidge, the murderer of his pretty young wife, whose release from Norristown insane asylum has been asked for, was heard by Judge Clayton at the court house this morning and after taking the testimony of an expert and others, the court released the defendant but required him to give bonds in $5,000 to keep the peace toward Dr. Mary Jones and her son, the mother and brother of the murdered wife.

W. B. Broomall and Garrett Smedley Esqs., appeared as counsel for Professor Shortlidge. Their client sat by the lawyers looking in good health and apparently as well as any time for years.

She Was 115 Years Old.

Zanesville, O., May 6.—The remains of Mrs. Ebe Wildman were brought to this city from Portersville to-day for burial, she having died Saturday. Her grandson, who accompanied the remains, states that the family records show her to have been 115 years of age. She was born in England and came to the United States when very young. She retained all her faculties, and until within a few weeks of her death could hear well and could thread a needle.

"Sport" Down in Mexico.

City of Mexico, May 5.—The long heralded fight between a bull and a lion in Monterey to-day was a complete fizzle. After two hours had been wasted in vain efforts to bring the beasts together the public left the plaza in disgust. The lion was evidently cowed by his experience in the last fight and simply ran around the cage. The bull was full of fight. The lion finally was hauled up by the neck and the bull used him as a punching bag. After the public had gone the lion died.

Louisiana Becoming Civilized.

New Orleans, May 6.—The supreme court to-day decided against the Olympic club, knocking out the fights before that institution. This is the second opinion in the case, the court haying remanded the terma Judge Righter's decision affirming the right of the club to give prize fights was thus set aside to-day by the higher tribunal. The result is a death blow to prize fights in this city.

A TRIPPLE INSTRUMENT.

Telephone, Telegraph and Type-writer in One Machine.

A number of influential citizens are organizing a company in Pittsburg to supply a system of communication which will combine the advantages of the telegraph, telephone and type-writer. The plan has got beyond the experimental stage, and is not only in actual business operation in other places, but the machines can now be seen in Pittsburg doing all that is claimed for them. The system is the property of the United States Printing Telegraph company.

The machinery consists of a one horse dynamo of 500 volts, and two generators of one-half horse power each, and of 110 volts. The printing instruments are all similar, and resemble a combination of a type-writer with a telegraph instrument. By operating the keys, 30 in number, the message is printed on a telegraph tape, both on the sending and receiving instruments; there are also attachable instruments by which the messages are printed on pages instead of tape. They will print about 30 words a minute. The types are set on a wheel in a printing machine. The pressing of the keys on that machine creates a sufficient current to operate the curious instrument called the alternator and cause its ratchets to move a more or less distance, and this revolves the wheel with the types to the proper point.

Any number of subscribers can be connected with the central station. Each subscriber can call any other and print his message on the latter's instrument, whether he is present or not. This obviates one of the great annoyances of the telephone—that of the person for whom the message is intended being "not in." The same single wire system used by telegraph companies is employed in this system. The messages are secret. They cannot be read by sound nor received either by the central office or any other subscriber than the one they are intended for. Every subscriber is his own operator, and retains a copy of his message. There is none of the delay frequent in the use of the telephone by reason of inability to understand what is being said, the message being printed out in full before the receiver's eyes. There are no batteries required in the subscriber's offices.

Fatal Dynamite Explosion.

Pottsville, May 7.—By an explosion of a dynamite shot at the Albright colliery near Llewally, this morning, one man was killed and several injured, one perhaps fatally. Killed—Thomas Flood, aged 33, single. Injured—James Lidiback, perhaps fatally; John Calligan, slightly; John Morasik, slightly. The four men were employed by the contracting firm of Messrs. King & Scott. It is believed that the men employed at the previous shift had accidentally failed to fire one of the holes, which they had charged, and the drill struck the dynamite and caused it to explode.

May Have Been Guilty.

Easton, Pa., May 6.—Samuel Carpenter, who was arrested about ten days ago charged with shooting and killing Mrs. Ray Blackwell, of Philipsburg, N. J., and who tried to commit suicide in jail here by cutting his throat, has generally been believed to have been innocent of the crime. A seemingly incriminating piece of evidence is alleged to have been found against him to-day. The revolver found beside Mrs. Blackwell, and with which she was supposed to have been shot, it has been learned, was purchased by Carpenter the day before the woman was killed.

Stabbed his two Daughters.

Oakland Cal., May 5.—Thomas Thome, a French shoemaker stabbed his two daughters yesterday, one fatally. The other's wound is not necessarily fatal. The man then killed himself.

The crime is attributed to the murderer's recent debauch. His dissipation had caused a family separation. He went this morning to a laundry conducted by his wife, saying to her: "I have come to kill you." She fled to the street. Thome went to the room where his daughters were still in bed and stabbed one six times in the breast and chest. The other was stabbed in the abdomen.

Opposed to Desecration of Memorial Day.

Lancaster, Pa., May 6.—A convention of representatives of the eighteen Grand Army posts of Lancaster county was held here to-day. A series of resolutions were adopted condemning the desecration of Memorial Day by base ball games, picnic and excursions, and appealing to patriotic citizens to discourage the practices to the day may be preserved for the purpose intended by its illustrious founder, the late General John A. Logan.

VIRGINIA MINERS STRIKE.

Ten Thousand of Them are Out in the Flat Top Region.

Roanoke, Va., May 1.—A prominent Flat Top operator was here to-day, and in an interview said that there are not more than 10,000 miners on a strike in that region. The five mines at work employ small forces and use electrical machinery, which is a great labor saver. There is a bitter feeling among the miners because of the introduction of this machinery. The operator said that under the present freight agreement they get only 65 cents per ton above the freight out of which to pay all the expenses of mining. Colonel William Lamb, of Norfolk, who attended the meeting of the Norfolk and Western stockholders here to-day, said, in an interview, that the reduction of the tariff on coal is the cause of the strike.

Lynchburg, Va., May 1.—A special from Elkhorn, W. Va., says: At Keystone to-day fully 3,000 miners met. They were addressed by J. W. Lawless, of the Mine Workers' union. Nine hundred men entered the union at Keystone last night. To-morrow a special will carry the operators of this region to Roanoke to confer with railroad officials. It is really a strike against the Norfolk and Western for better shipping rates. Opposition is developing against the introduction of machines in the mines. Guards are watching the trestles and tunnels on the road and tipples and drift mouths on the work. While there has been no violence, rumors are afloat that cause apprehension. There was much drinking in the meeting at Keystone to-day, which was not conducive to peace. To-day there are threats to tie up the railroad. All the empty cars were taken out to-day. Sunday is set for an immense meeting at Pocahontas.

Charleston, W. Va., May 1.—United States Marshal Garden, who is here attending United States court, to-day received a telegram asking for protection in the Bluefield coal region from strikers. Governor MacCorkle, of West Virginia, has been asked by the governor of Virginia to allow troops to pass through the state en route to that part of Flat Top coal field which lies in Virginia. Serious trouble is expected.

An Asylum Committee Reports.

Harrisburg, May 1.—The joint committee of the house and senate to inquire into the abuses at the Wernersville asylum for the insane has made its report. The committee on part of the senate were Messrs. Gobin, Meredith and Rowland and on the part of the house Messrs. Cochrane, Gould, Princhard, Pomeroy and Parcells.

The committee reported that there was no evidence of cruelty or ill treatment on the part of the attendants, and the bruises on the patients were accounted for by the officials of the institution, who claim that they were self-inflicted. The committee condemns the manner in which patients were sent from other institutions to the Wernersville hospital by the board of charities. The accounts they found in excellent shape and up to the best standard. The complaint that there was extravagance in the purchases of furniture is not borne out by the facts. The committee ascertained that not more than four unnaturalized citizens were employed as attendants. The action of the trustees in the equipment and purchase of supplies for the institution has been marked in the main by excellent judgment.

He Proposed Marriage.

San Francisco, May 1.—The coroner's inquest in the case of Blanch Namont, one of the girls found murdered in the Emanuel Baptist church commenced this morning. Mrs. C. J. Noble, aunt of the dead girl, was the first witness. She testified that on the night of the murder she attended prayer meeting at the church. Durrant was there and asked her if Miss Lamont would be present. She told him, "no."

The rings sent Mrs. Noble by mail were shown to her and she identified them as having been on Blanche's fingers on the day of her disappearance. Just before Christmas, the witness said, Blanche told her that Durrant had proposed to her and she thought he did not mean it as she had known him so short a time. As she thought he was joking, she mumbled an affirmative reply only in jest. When she learned that he was engaged to another girl she told him she would not marry him.

Will Build a New Jail.

Bedford, Pa., May 1.—The county commissioners to-day awarded a contract for constructing a county jail in Bedford to the Van Done Iron Works company of Cleveland, Ohio, the work to commence in two weeks and the structure is to cost $25,000.

J. W. Ridenour and Frank W. Jordan are erecting in the centre of the town in the court yard of General Washington's headquarters, a three-story room to cost $60,000.

Gordon Released on Bail.

Louisville, Ky., May 1.—Fulton Gordon, who yesterday shot and killed his wife and Arch Brown in an assignation house, was brought into court to-day and his attorney moved for an immediate trial. Judge Smith refused to grant this, as he did likewise a motion to admit Gordon to bail, and set the trial for Saturday morning. Mrs. Gordon was buried this morning and young Brown's body was taken to his father's home at Henderson.

IT FLOATS

FORTY MILLION CAKES YEARLY

THE PROCTER & GAMBLE CO., CIN'TI.

Would Say Nothing.

New York, May 1.—United States Consul General to Cuba R. O. Williams, about whose attitude concerning the Cuban insurrection the Spanish was said to object so strongly, arrived here this morning on the Ward line steamer Vigilancia.

Mr. Williams was asked if he would say something about the alleged hostilities of the Spanish government to him as the consular representative of this country. He said: "I must decline to speak on that matter as it would be a grave breach of my duty to the government.

"I am going to Washington this afternoon and will lay a full report of my actions before the secretary. He will give to the public that which he thinks best. Nor can I express my opinion on the political affairs of Cuba. In fact I can say nothing about the island." Mr. Williams had a large amount of baggage with him and the impression is that he is not back to Cuba.

Ohio Miners Meet.

Columbus, O., May 1.—The Ohio miners' convention opened at 10 o'clock this morning with eighty delegates present and Michael Ratchford, of Massillon, presiding. President Ratchford read the call and after the appointment of the committee on credentials, rules and order of business and resolutions, the convention adjourned to 3 p. m.

This afternoon a resolution was offered by the Massillon delgate fixing the mining wages for Ohio at 70 and 79 cents per ton, 10 cents for each ton to be turned over by the operators for the support of strikers in the Pittsburg district. This is virtually the proposition made by President Penna, of the national organization, several days ago. A majority of the delegates, seem to favor the scale of last year—60 and 69 cents—with seven cents for each ton to be paid to the Pittsburg strikers.

An Ex-Congressman Dead.

Mauch Chunk, Pa., May. 1.—Robert Klotz, who represented this district in the Forty-sixth and Forty-seventh congresses died at his home here to-day, aged 76 years. Mr. Klotz was prominent in democratic politics for many years. Hon. Robert Klotz was born in Carbon county, Pa. He served as a lieutenant of volunteers in the Mexican war. In 1855 he went to Kansas, where he served as a member of the Topeka constitutional convention, as secretary of state and as brigadier general. Returning to Pennsylvania in 1859 he served as treasurer of Carbon county and two terms in the state legislature and as a member of congress from 1879 to 1883. He was a trustee of the Lehigh University and one of the managers of the Laflin & Rand Powder company of New York.

Celebrated May Day.

Chicago, May 1.—The Mayday parade under the auspices of the Socialistic federation of Chicago and the Central Labor union took place here this afternoon. About 3,500 men were in line. After marching through the down streets they proceeded to Turner hall, where a varied program was carried out and prizes distributed. But the Trade and Labor assembly and the Building Trade council declined to participate in the demonstration on the ground that they recognized September 1 as labor's legal holiday. To-day's celebration is in support of the international struggle for eight hours on the part of the working people, especially in England and Germany.

Miners' Wages Advanced.

DuBois, Pa., May 1.—The Bell, Lewis & Yates Coal mining company, the Rochester and Pittsburg Coal and Iron company and the Helvetia Mining company advanced the price of mining from 35 to 40 cents a ton to-day and the wages of the mine laborers in proportion. The advance will continue during the present month and then cease unless competing collieries raise wages to the same basis. The Tarby Valley operators propose to raise the wages of their employes to the 40 cent rate on June 1, providing the other companies continue to pay it. An important meeting of delegates from the Clearfield, Jefferson, Centre and Indiana county miners will be held at Houtzdale to-morrow.

South Carolina Excited.

Columbia, S. C., May 2.—The constitutionality of the registration law and constitutional convention act of the state of South Carolina is being tested before United States Circuit Judge Nathan Goff here to-day. The matter comes up on the temporary injunctions recently granted by Judge Goff, one at the instance of C. A. Douglass, and the other at the instance of J. F. J. Caldwell, and Sampson Pope, defeated candidate for governor in the last election. If the injunctions are made permanent, it means a revolution in the state so far as voting goes. The greatest interest is taken in the case, which will take several days to argue.

That Gettysburg Park Trouble.

Washington, May 2.—The controversy between the United States through the commissioners of the National Military park at Gettysburg and the Gettysburg Electric Railroad company, over a strip of ground occupied by the railroad company and desired by the commissioners for the purposes of the park, has been brought to the supreme court of the United States from the decision of Judge Dallas, of the circuit court for the Third judicial district. Judge Dallas refused to sustain the government's petition for condemnation of the land on the ground that the acquisition of the property for park purposes was not a public necessity, which alone could justify the use of the power of eminent domain. Judge Butler, the district judge, dissented from that view, but Judge Dallas's opinion prevailed and the United States brought the case to the supreme court of the United States.

Miners Meet at Philipsburg.

Philipsburg, Pa., May 2.—The miners' convention, which met in Houtzdale today to consider and take action on the replies from the operators to the request of the miners for an advance, was attended by delegates representing nearly all the miners of the soft coal regions in Central Pennsylvania. After holding two sessions the convention adjourned until to-morrow. There is much anxiety felt throughout the Clearfield and Beech Creek regions for fear a suspension of work may be ordered in view of the operators having declined to accede to the request of their employes. The mining situation in the states of Virginia, Ohio and Western Pennsylvania has a tendency to make the situation more complex.

And There May be Trouble.

Washington, May 1.—One week from to-day—the 8th instant—the armistice agreed upon by by Japan and China will expire. If on that date the Chinese emperor has failed to ratify the treaty which was signed at Shimonoseki three weeks ago, the Japanese forces will begin at once an aggressive movement toward Pekin. Notwithstanding the interference of the European powers, every assurance received here leads to the expectation that China will exchange treaty ratifications with Japan.

Will Think the Matter Over.

Harrisburg, Pa., May 1.—The senate judiciary committee has postponed action until next Tuesday night on the Penrose resolution for a committee to investigate the operations of the Bullitt law. Silas W. Pettit, George Burnham and Clinton Woodruff Rodgers, representing the municipal league and citizens' municipal association were heard by the committee this afternoon in support of the resolution. Next Tuesday Mayor Warwick, ex-Mayor Stuart, the city controller and others opposed to the proposed investigation will be given a hearing.

No Shortage in the State Treasury.

Harrisburg, May 1.—There is no shortage in the state treasury, as is shown by the report of the state treasurer for April, at the close of which month he had $4,487,856 in the general fund. With the revenues at $22,000,000 for the past two years he has now from $3,000,000 to $5,000,000 in the treasury at the end of each month. With the estimated revenues for the next two years at $20,000,000 he would have from $1,000,000 to $3,000,000 of a surplus.

Carried Overboard and Drowned.

Philadelphia, May 1.—The steamship Indiana, which arrived here to-day from Liverpool, encountered violent squalls and strong easterly gales as she approached the coast but suffered no damage. On April 22nd it was found that Michael Gilbrie, an Irish steerage passenger, was missing, and it is supposed that he was carried overboard by a sea that swept the deck and was drowned. On April 27 William Saller, another steerage passenger died.

The War is Over.

Washington, May 1.—Important advices indicating the termination of the war between China and Japan have been received in this city to-night. While details of the negotiations are in no respect complete, the information leads to positive impressions that the war is practically over and enough is given in them to clearly present a situation in the rough consonant with the United Press reports of an early settlement of the war in the east.

A Rare Opportunity.

Any man or woman without previous experience can earn pay for whole or part time for selling seed potatoes and nursery stock for J. E. WHITNEY, Rochester, New York. 25-47-1yr

MANGLED BY A DOG.

A Girl Bitten in Fifty Places by a Furious Brute.

Chester, Pa., May 2.—When tripping home from Gartside school yesterday afternoon 13-year-old Lizzie Pagano was attacked by a dog and horribly bitten. The surgeon who dressed her wounds found that she had been torn in no fewer than fifty places.

Lizzie says the dog was playing in the street with two other canines when, as she passed, it sprang upon her, knocking her down. She was so badly frightened that she could not at first scream. The dog savagely sunk its teeth in her legs, thigh and both arms, and would certainly have killed her but for a man, who, chancing by, saw the girl's prostrate form and the dog, and beat the latter off.

The brute had made repeated and ferocious attempts to seize her throat. The girl fought bravely to save herself, and was successful in keeping the fangs from her neck.

Lizzie was picked up and carried to a doctor's office. The thick stockings she wore greatly protected her legs, although they were fearfully lacerated. The dog is a mongrel and has bitten several persons previously. Lizzie says she screamed, but no one heard her.

Soon Come, Soon Gone.

Pittsburg, May 2.—The negroes that arrived at F. L. Robbin's mine in the McDonald district, say to-night they will leave to-morrow. The strikers evidently did good missionary work to-day, notwithstanding the fact that the deputies were on hand to protect the colored men. If any of the imported men start to work to-morrow and mine coal trouble is expected.

On the Wheeling division of the Baltimore and Ohio railroad, all the old men except nine, employed by the Pittsburg and Chicago Coal company, signed new contracts to-day at the sixty cent rate. The capacity of the mines in this district when running in full is about 200 cars per day. The output now is about 100 cars.

Will Go It Alone.

Cincinnati, O., May 2.—At the annual meeting of the trustees of the Lane Theological seminary the proposition of the Presbyterian General Assembly to take control of the institution was rejected. George M. Maxwell, who has been president of the board for twenty-one years, was ousted and E. E. White elected to succeed him. Other officers were elected to fill vacancies. The action of the General assembly in asking that only Presbyterian ministers in good standing be selected as professors was nominally indorsed, and the refusal to co-operate is put upon legal grounds. This action is regarded as a victory for the liberals. E. D. Morris resigned as chief professor and the resignation was accepted.

We Have a Big Country.

The whole population of the United States, it is calculated, could be concentrated in Texas without bringing up the destiny of her population to that of Massachusetts. In fact, if an area equal to that of Indiana were cut off from Texas, the state would still hold the entire population of the United States without crowding us as the people of Massachusetts are crowded.

WOMAN'S SUFFERING.

RELIEVED BY MAIL. HOW IT IS DONE.

How a Woman Works for Her Sex.

(SPECIAL TO OUR LADY READERS.)

Seated at her desk in the bureau of correspondence, this wonderful woman opens her letters from all parts of the world. A few extracts from their contents tell the story:—

FROM IOWA. "I am in a very bad condition. My courses have stopped from catching cold, and the pain is fearful. I am all bloated up; and the pain in lower part of my body is terrible. My back and head ache all the time. What shall I do for it?" Miss L——, Des Moines.

FROM NEW JERSEY. Mrs. Lizzie DeCline, 224 Grand Street, Jersey City, relates her miseries resulting from womb trouble, from which she was relieved and cured by the timely use of Lydia E. Pinkham's Vegetable Compound. She ends her letter by saying, "I owe all to you."

FROM OHIO. Mrs. Newton Cobb, of Manchester, O., writes: "I used eight bottles of your Vegetable Compound, and I am happy to say it has cured me of painful menstruations and backache. My suffering every month was dreadful. The doctors gave me morphine to ease the pain; nothing to cure me. Oh, I want to tell every one what cured me! I wish every suffering woman would write and get your advice."

FROM ILLINOIS. Miss Jennie ——, Chicago, states that she is twenty-two years of age; occupation, saleswoman in large dry goods store. Constant standing has brought on womb trouble, the symptoms of which she describes fully. She says: "Help me if you can. There are several girls I know who have written to Mrs. Pinkham, and been cured by her advice and medicine."

FROM PENNS'LV'N'A. Miss Mary Smylie, who resides at 2078 E. Susquehanna Avenue, Kensington, Phila., writes: "I am a working girl, and must stand eleven hours every day. I have suffered terribly from painful menstruations and kidney trouble. At times my head was so dizzy I could hardly see. A friend recommended your Vegetable Compound. I am a different girl now: no more aches and pains. Oh, thank you, thank you!"

The above extracts from many hundred letters received daily by Mrs. Pinkham, at Lynn, Mass., go to show how easily ailing women can obtain advice and relief. Write to Mrs. Pinkham.

Lydia E. Pinkham's Vegetable Compound, the most successful female medicine known to the world, can be obtained of any druggist in the land.

"WHERE DIRT GATHERS, WASTE RULES."

GREAT SAVING RESULTS FROM THE USE OF

SAPOLIO

Pass the Appointment.

The Constitution is mandatory upon the Legislature to pass the necessary appointment bills. They were defeated two years ago because the Legislative authority was divided on political lines, the Governor being Democratic and the Legislature Republican.

A new Congressional apportionment has been reported and it is the duty of the Legislature to pass the measure on as equitable basis as is obtainable with partisan influences dominant. The bill reported is probably as fair as the Democrats would be likely to get, and it is much better that it should be passed than that the Legislature should fail to perform a positive duty.

The Republicans grab everything that is in sight in the Congressional apportionment, as would the minority party if it had the power. It is unjust, but it is excused because all parties do it, and as the present apportionment is no better than the new, and as there is no prospect of getting a fairer apportionment than either, the Legislature should perform its duty because the paramount law commands that it shall be done.

They were Scared.

One night not long ago some young folks were sitting up with a corpse near Fillmore. Everything went well until the ghost hour, mid-night, sounded on the old fashioned corner clock and just as the watchers had heard the last solemn stroke the knell of a departed day, the door of the room opened noiselessly and a white robed figure glided in.

Imagine the awful fear that filled them at once. Their eyes, burning from the glare of the lamp on the table nearby, were little to distinguish any mortal being in the long white robe and of course a ghost was the first thing they thought of. Such shrieks and cries had never been heard in that house before and not until the whole household was aroused were the atchers able to comprehend that the supposed ghost was only a female member of the family who had come down stairs to see if they were comfortable.

The Scheme Worked.

It is related that a certain man was recently very sad because his wife had gone on a visit, which she would not shorten in spite of his appeals to come home. He finally hit upon a plan to induce her to return. He sent her a copy of each of the local papers with one item clipped out, and when she wrote to find out what it was clipped from the papers he refused to tell her. The scheme worked admirably. In less than a week she was home to find out what it was that had been going on that her husband did not want her to know about.

Clearfield Lumber Decrease.

There is no better evidence of the enormous decrease in the lumbering industry of Clearfield county than the fact that but four rafts came out of the Clearfield creek this year and about 800,000 feet of logs. Twelve years ago 75 rafts were common and about 40,000,000 feet of logs. The great lumber section is gone, and the men who worked in the lumber woods most of the year have now turned their attention to coal and fire clay mining.

Hottest Recollected.

Oil City, Pa., May 5.—To-day has been the hottest day for this season of the year in the recollection of the oldest inhabitant. The thermometer registered 94 degrees in the shade at 11 o'clock this morning and at 5 o'clock it registered 93. The mountain streams are almost dry, and the farmers and dairymen in this section are praying for a good rain. The price of milk will be advanced if there is no rain soon.

A Singular Case.

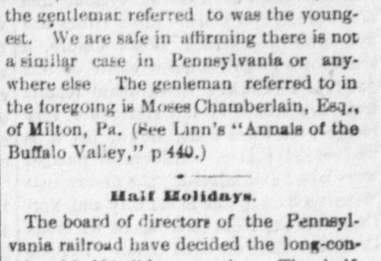
A recent number of the Harrisburg Telegraph says: "There is living to-day in an interior town of Pennsylvania a gentleman whose brother fought and was killed in the battle of Germantown, October 4, 1777—118 years ago. This gentleman was born in 1812, and is therefore 82 years old. His birth occured thirty-five years after the battle, and the brother who lost his life, aged 18, was the oldest son of his father, who had twenty-four children, and the gentleman referred to was the youngest. We are safe in affirming there is not a similar case in Pennsylvania or anywhere else. The gentleman referred to in the foregoing is Moses Chamberlain, Esq., of Milton, Pa. (See Linn's "Annals of the Buffalo Valley," p 440.)

Half Holidays.

The board of directors of the Pennsylvania railroad have decided the long-considered half holiday question. The half-holiday period will begin May 15 and end on September 15. Heretofore the period commenced on June 15 and ended on the September date as given above. The employes are therefore given an extra month of Saturday half-holidays. The proposition to have Saturday half holidays on the lines west of Pittsburg was rejected on the ground that it would seriously interfere with the operation of some departments.

Sad Tale of Deaths.

An appalling affliction has come to Moses Sherer, of Allentown. His family three months ago consisted of a wife and four children. On February 16 two children died of diphtheria, and shortly after another succumbed to the same disease. A few weeks ago Mrs. Sherer passed away, and on the night of Friday last the last child died, leaving Mr. Sherer alone.



SAILED THE SEAS 38 YEARS.

One of His Experiences.

For thirty-eight years Capt. Loud followed the sea, most of that time as master of a vessel, and upon retiring from the water was appointed by the Secretary of the United States Treasury to superintend the seal fisheries in Alaska, which position he held five years. He relates one experience as follows:

"For several years I had been troubled with general nervousness and pain in the region of my heart. My greatest affliction was sleeplessness; it was almost impossible at any time to obtain rest and sleep. Having seen Dr. Miles' remedies advertised I began using Nervine. After taking a small quantity the benefit received was so great that I was positively alarmed, thinking the remedy contained opiates which would finally be injurious to me; but on being assured by the druggist that it was perfectly harmless, I continued it together with the Heart Cure. Today I can conscientiously say that Dr. Miles' Restorative Nervine and New Heart Cure did more for me than anything I had ever taken. I had been treated by eminent physicians in New York and San Francisco without benefit. I owe my present good health to the judicious use of these most valuable remedies, and heartily recommend them to all afflicted as I was."—Capt. A. P. Loud, Hampden, Me.

Dr. Miles' Restorative Nervine and New Cure are sold by all druggists on a positive guarantee, or by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price. $1 per bottle, or six bottles for $5, express prepaid. They are free from all opiates and dangerous drugs.

AN IMPORTANT CLUB OFFER

SCRIBNER'S MAGAZINE

SCRIBNER'S MAGAZINE

The Sun Paper.

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Marriedand Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DONQUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

What Bellefonte Failed to Get.

LEWISTOWN, PA., May 2, 1895.

EDITOR DAILY NEWS,
Bellefonte, Pa.,

MY DEAR SIR:—

Some weeks ago I noticed an article in the DAILY NEWS, offered no doubt by the writer as an honest excuse for not closing a deal with any of the several industries then looking for a new location, and now, as I was not one of the people who "wanted the earth," nor one who wished to be set up in business by other people's money alone without all parties concerned reaping their just benefits, I would like to say just now, and can say it in truth, that Bellefonte lost a good thing and I am the gainer thereby; as our little factory here is running full handed day and evenings until 10 o'clock. We have not room left to put in even one more hand, besides sending work out all through the town to houses, where women and girls have good sewing machines of their own. I have a standing order, or contract, from two houses who will, and are, taking all the goods I can make. I have a couple of dozen, at least, first class sewers who live from three to over one hundred miles from here, who are making handsome wages and are benefitting the merchants here to the amount of their board money. In all I have about one hundred hands working now and am taking on new outside hands daily; and as their wages range from 75 cents up to $1.50 a day, everybody (excepting the Doctors) are happy. You have a beautiful little town and at one time I had hopes of becoming one of you; but that has been settled satisfactorily to us all. With kindest wishes for the success of your little town and the people in it, I am

Yours very Truly,
H. R. PARKER.

In Court Last Week.

Last week was a rather quiet week for court week and yet there has been a little business done. The first case called for trial Monday was that of Samuel Wolfart, of Loganton, Clinton county, Pa., against his brother's wife, Mrs. George Wolfart, who resides in the eastern portion of Miles township. Samuel had loaned his brother about $6,000 at various times and took a judgment note, and, in compliance with his brother's request, he never entered the same. George Wolfart became involved and gave his wife a judgment note for money he had borrowed from her. She proceeded upon the same and secured title to her husband's property. Samuel entered his judgment but it was too late to secure anything. He claims this was a fraudulent proceeding. Messrs. Orvis, Bower & Orvis appeared for the defendant and Ira C. Mitchell, Esq, for the plaintiff. Tuesday afternoon a verdict for the defendant, Mrs. Wolfart, was rendered.

McCalmont & Co. vs. Eve Shearer, of Taylor township. An action to test title to property. McCalmont & Co., held a judgment against Christ Shearer and when effort was made to sell certain property they supposed to be his, his wife, Eve Shearer, laid claim to the same. Jas. B. Alexander and A. O. Furst appeared for plaintiff and C. Dale and W. F. Reeder for defendant.

73rd Anniversary.

The First Baptist Church, at Milesburg, Centre county, Pa., have decided to hold the 73d anniversary of the church organization on the 18th of August, 1895. The services will be held eight days, beginning on Thursday evening, the 15th, and closing on Thursday evening, the 22d. An invitation will be extended to all the old living pastors within reach, as well as to the neighboring Baptist ministers and the town clergy to take part in the festivities. We shall try to have a different minister for each service. In the mean time we shall have a program made out for each service. One of the meetings will be wholly a conference meeting, after the fashion of a good old Methodist meeting. We shall also have a Committee of Arrangements, and a Committee of Entertainment. This will all be arranged in time.

Stabbing Affray.

On Monday evening a serious stabbing affray occurred at Millheim. Coburn King, a young man about 25 years of age, is employed at the hotel in that place as a hostler. The night he was under influence of liquor and got in an altercation with Mr. Abe Kessler, merchant, whom he accused of laughing at him. Words led to blows and in struggle King drew a knife and plunged it into Kesslers left leg on the inside, above the knee, inflicting an ugly wound. King was asrested but while in charge of the constable, he made his escape and has not yet been apprehended.

Some of the citizens became quite indignant over the carelessness of this official. Mr. Kessler's wound will not prove serious.

Strange Phenomena.

Persons who happened to be on the street Friday night about midnight and after, saw a curious spectacle. A flight of enormous black beetles passed over the town and attracted by the electric arc street lights hovered about them in countless myraids. Thousands of these "big bugs" came in contact with the line wires and fell on the pavements and on the street under the lights. Some recovered from the shock and flew away, but plenty of them were killed outright and were lying where they fell next morning. Some of the insects were three inches in length. The flight lasted perhaps two hours.—Philipsburg *Ledger*.

Prices.

The master fallacy of the speeches and writings of the extreme silverites is the assumption that the low prices of certain commodities is mainly traceable to the exclusion of silver from the Mints, or in other words to the scarcity of money. Some of these people religiously believe apparently that the restoration of silver will not only increase values, not prices simply, but will prevent fluctuations in prices and keep all commodities on a paying basis. The fact that there is a larger per capita circulated now than there has been at any time in our financial history, save in 1891, when the per capita circulation was only eleven centr greater than in 1894, is either studiously ignored or brushed aside as of no significance. In the best of the "good old times" the per capita was much lower than it is to-day, and this halcyon past bore no material relation to the quantity of money in circulation. In the decade before the war, when the country was as prosperous as at any period, the highest per capita was $15 81, against $24 30 in 1894. Wheat and all other commodities have risen and fallen in price during the century without regard to the amount of money in circulation, and periods will come, whatever may be done with silver, when it will not "pay" to raise certain crops. The silver orators and writers indulge in a good deal of cant in dealing with wheat. Cheap wheat and cheap bread stuffs of any sort are boons to millions of people in this country who are not directly interested in their production, but neither the producer nor the consumer can control their prices relatively to other articles. Cheap bread stuffs are deplored by the farmer, yet they are a blessing to the consumers. It depends upon the point of view. The statesman is presumed to legislate for the greatest good of the greatest number. He cannot aid either the producer or consumer in the long run by inflating the currency.

Now for Good Roads.

Having reconsidered the vote by which the Brown-Smiley road bill was defeated laat week the Assembly should further exhibit its wisdom by passing that measure and also Senator Flinn's bill with the tax of not more than one mill. Under the last named act Allegheny county could improve its rural highways and by the former the less populous counties could make much better roads without any appreciable increase in taxation.

There is nothing in the Brown-Smiley bill to burden even the poorest townships as it affords the largest possible measure of option consistent with the making of any permanent roadway. It does establish a system that will lead to sure results—very slowly where the disposition is laggard and more speedily in sections where more expenses will be welcomed to get quicker returns.

The plea made at Harrisburg that crops were light last year, that times are hard and the farmer cannot stand any more taxes is only an evasion of the question that legislators of that mind should be held to account for when they go home. Systematic road making is not necessarily expensive and the expense it does entail is returned immediately to the farmer. Those rural gentlemen who deny good roads to their constituents while granting extraordinary privileges to the corporations will not always be able to fool all the people all of the time.

Central American Union.

Official confirmation of the probable early settlement of the Nicaraguan trouble comes from Ambassador Bayard at London. San Salvador proffers the payment of the indemnity and as soon as Nicaragua confirms or indorses that offer the British will evacuate Corinto.

The kind interest of Salvador in her neighbor's trouble naturally revives speculation regarding the old proposition to federate all the Central American republics into a union like the United States. They have a mutual fear that England may seize some of their territory in spite of the Monroe doctrine and by combination they could better resist.

This country may well exert its friendly influence to bring about such union. The petty little republics of Central America could be better governed as a whole than they are as independent States. The incentive to revolution would be less because the prospects for success would be decreased. Commercial interests would thrive much better with a more stable government and in every way it should improve the condition of the people. If the onslaught of Great Britain shall have the good effect to bring about such a union it will have been a blessing in disguise.

Will Be Caught Dead or Alive.

Milford, Del., May 3.—On the 23d of last month James Williams, a peddler, committed rape on the person of his daughter, Bessie, 15 years old. The mother and a sister of the girl were absent from home at the time at work in the shirt factory here. The daughter kept the horrible crime of her father a secret until last Sunday, when she made it known to her grandfather, living in the country, who swore out a warrant for William's arrest. Upon hearing that a warrant had been issued Williams fled before the officers could arrest him, and is supposed to be lurking in the swamps near the town. A constable and a posse have surrounded the swamps and he will be captured dead or alive. The excitement in the town is intense and the feeling very bitter against Williams, threats of violence being freely indulged in.

Ram's Horn Blasts.

The devil never runs from a sleeping saint.

The pleasures of sin are only pleasures for a season.

Some shepherds try the hardest to feed the fattest sheep.

A tombstone never makes the recording angel a good slate.

Personality is always power when God controlls and directs it.

The man who lives a solitary life will die a stranger to himself.

The house in the sand where the religion is all in the head.

In Christ, God showed us what he wants every man to become.

Whenever faith goes to church to pray for rain, it takes an umbrella.

The man who would walk with God cannot do it in a crooked path.

When praise starts the singing it always strikes the right keynote.

It is only the truth we follow that has power to lead us straight to God.

The devil will be sure to stay awhile if he calls on you when you are idle.

Every time treasure is laid up in heaven it does somebody good on earth.

No matter what he may claim to be in church, a stingy man cannot be a happy one.

Religion that is too noisy on Sunday, is always too quiet in the middle of the week.

The man who shrinks from self-denial pushes the cup of happiness away from his lips.

The man who loves sin is a sinner, no matter how big a place he fills in the church.

Lot was dragged out of Sodom, but there are some churchmembers who live there yet.

Give the devil your coat, and it won't be an hour before he will come back after your vest.

Through the State.

M. Geary, of the Oil City tube mills and Oil City boiler works, has notified his employees that after May 6 wages will be advanced 10 per cent.

The G. A. R. men of Jersey Shore have secured Linn Hartranft, Esq., son of the late Governor Hartranft, for their orator on Decoration Day.

At a recent meeting of citizens held at Newton Hamilton a committee was appointed to solicit subscriptions to further prospect for gold.

The decision of Judge Bell in the objections raised by ex-Judge Barnett as to the disposition of the costs in the Sponsler and Junkin case has been filed with the prothonotary of Perry county, He overrules the objections and the county will have to pay the costs, if the defendants are not able to do it.

Philipsburg Journal: The Forge Run Lumber company's big saw mill is now in full blast. About thirty hands are employed in and around the mill, and it is indeed a hive of busy industry.

John H. Dye, Jr., civil and mining engineer, of Johnstown, has been engaged by the Pennsylvania Trust company, of Reading, to make a survey of the coal lands owned or leased by the Euclid Coal and Coke company at South Fork.

Nine months in jail for stealing a few chickens is a pretty severe sentence, yet Judge McClure thought John Aultz, of near Strodes Mills, was entitled to it. The judge thinks there is too much stealing going on in Mifflin county and he is determined to break it up if possible,

Law and Religion.

Springfield, Ill., May 3. A bill was introduced in the legislature yesterday which is aimed at Schweinfurth, the Rockford "Christ." It provides that whoever assumes or pretends to be the Deity, or assumes to possess the attributes of the Deity or whoever falsely assumes or pretends to be the son of God, or Jesus Christ, and holds himself out to the world as possessing either or any of the attributes generally attribute to the Deity, shall be deemed guilty of a misdemeanor, and upon conviction shall be imprisoned in the penitentiary for one or two years.

Do not be deceived.

The following brands of White Lead are still made by the "Old Dutch" process of slow corrosion. They are standard, and always

Strictly Pure White Lead

The recommendation of
"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock,"

to you by your merchant is an evidence of his reliability, as he can sell you cheap ready-mixed paints and bogus White Lead and make a larger profit. Many short-sighted dealers do so.

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of Lead and mix your own paints. Saves time and annoyance in matching shades, and insures the best paint that it is possible to put on wood.

Send us a postal card and get our book on paints and color-card, free; it will probably save you a good many dollars.

NATIONAL LEAD CO., New York.
Pittsburg Branch,
German National Bank Building, Pittsburg.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Silver Tea Spoons *Free*, to every person who will send for one of our Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Sivereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons. Send at once as this offer is for 60 days only.

Price of Silvereen set $2.00.

Prof. HARRIS' SOLUBLE MEDICATED **Pastille**

THE PASTILLE CURE TRADE MARK FOR NERVOUS DEBILITY

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results.

We ask all persons needing treatment for any of the secret ills which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to convince them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have merit and are what they need.

All communications confidential and should be addressed to

The Silver Question.

Mr. Jay Cooke, the author of the following paper during the civil war, placed the enormous amount of $3,000,000,000 of Government securities with the people of the United States without direct profit to himself. In a speech, made in the United States Senate, in March, 1864, Senator John Sherman stated that the Secretary of the Treasury had vainly solicited subscriptions to the 5-20 loan from private capitalists for a whole year before Mr. Cooke took hold of the loan and procured the money direct from the people. The views of one so disinterested, who is more like Robert Morris than is any financier since the Revolution, cannot fail to be of weight and value.

Editor *Investment News*.

By Jay Cooke, Esq.

No issue before the country, in my judgment, is of such supreme importance as the question of silver. I am fully convinced that prosperity, and, in fact, the very salvation of the country depends upon a return to bi-metallism and free coinage. And whilst I speak so strongly I would not have it understood that I lessen or ignore the almost equal importance of that twin measure, viz.: the full restoration of protective duties on our manufactures and products, for we cannot, even with the remonetization of silver, enjoy the prosperity this country is entitled to, unless the heresy of Free Trade is abolished.

Let us examine the silver question:

It was not until about 1876 that the full effect of the demonetizing act of 1873 was brought to the notice of the public, and not until some time afterwards, when the natural effect of this legislation began to be seen in the depreciation of silver and of all American products, that parties began to inquire more particularly into the matter. It was found that Congress had ignorantly so legislated, and the then President had ignorantly signed a bill most deadly and injurious to the welfare of all our people.

It was freely admitted that Congress had no intention and that the President had no intention of demonetizing silver, when this disastrous bill was passed and signed. It is hardly necessary, at this late day, to present proofs of this assertion, but they are abundant. Judge William D. Kelley said, in the House of Representatives, on March 10, 1878: "I was chairman of the committee that reported the original bill, and I aver, on my honor, that I did not know the fact that it proposed to drop the standard dollar, and did not learn that it had done it for eighteen months after the passage of the substitute offered by Mr. Hooper, when I disputed the fact." Senator Thurman said: "There is not a single man in the Senate, I think, unless a member of the committee from which the bill came, who had the slightest idea that it was even a squaint toward demonetization." Representative Holman denounces the method of passing the act as a "colossal swindle." Senator Bright, of Tennessee, declared "It passed by fraud in the House, never having been printed in advance, being a substitute for the printed bill," and there is no end of testimony to the same effect.

I have been told, and whether the story is true or false, I cannot say, that this whole action was a conspiracy upon the part of some of our own officials, who had been spending some time in London, hobnobbing with the monometallists of that city, who came home fully committed to this act of demonetization. See how all the circumstances conspired to render the accomplishment of this action very easy, and apparently in the natural course of business. These parties above referred to, one of whom was said to have been the superintendent of the Mint, met on his return to his duties, the regular commission appointed to supervise the coinage. It was stated, and was a fact, that since the silver dollar of 371¼ grains fineness was made the unit of value in 1792, and owing to the scarcity and high price of silver, only some eight millions of silver dollars had been coined in a period of over eighty years, and the question was submitted: "Why not drop the silver dollar from the coinage and adopt the gold dollar as the unit of value?" The suggestion did not seem to attract much attention, but seemed plausible and was acceded to. When the matter was brought before Congress, it was passed over lightly and carelessly, and adopted without inquiry or examination. Thenceforward, the rights which the people had enjoyed under the constitution, were refused them, and the mints of this nation were violently closed against the free coinage of silver. I have always maintained that the contract between the States and the United States has been violated by this closing of the mints to free coinage of silver, and, I believe, that if the question can ever be brought before the Supreme Court, it would be decided that all acts authorizing the refusal of free coinage of silver as well as gold, would be pronounced unconstitutional.

This is how the mints of our country unconstitutionally have refused ever since 1873 the free coinage of silver. Subsidary coin of silver, such as halves, quarters, dimes and half-dimes, being much alloyed and liable to lose weight by abrasion, have never been a legal tender, beyond five dollars at one offer; therefore by refusing to continue the coinage of the old standard unit dollar, all silver became practically non-legal tender. The trade dollar whilst containing more silver than the standard dollar, was provided only for the purposes of trade with the Oriental countries, and was a make-shift, as, at that time, Mexican and Spanish dollars, which were used for this purpose, had risen to so great a premium and were so scarce that trade with China, Japan and India was much hindered thereby. Besides a large influx of silver at that period from the Nevada mines made such an outlet by this special coinage of trade dollars, very desirable. A compromise by which the celebrated Bland dollar was issued, and the Government undertook to purchase a certain amount of bullion each month, followed afterwards by the Sherman Bill requiring still larger purchases, were all attempts to compromise for the error committed by the demonetization of silver in 1873.

At the time the act demonetizing silver was passed, England alone, with the cooperation possibly of Germany, were the only countries pledged to monometallism, and had our country stood firm, neither France nor the other Latin countries would have suspended the coinage of silver at their mints. The natural growth of our vigorous and money-handling population from North to South, and from East to West, would have absorbed every dollar of silver produced in this country, and much possibly, that might have been admitted from Mexico.

This act has worked infinite harm and damage to all the debtor classes which are as fifty to one in this country, compelling all who rely on the products of their industry to discharge their indebtedness, to pay such debts contracted when silver and gold were both equal standards of value, at a time now, when gold alone is recognized as the unit of value and the basis of all value amongst the civilized nations of the world. The act was an unjust one towards the farmer, the planter, the borrower and only profitable to the holders of gold-bearing bonds, and large capitalists, both at home and abroad.

An increase of nearly 50 per cent. in the burden of everyone's indebtedness is surely in most instances felt and realized. A recent pamphlet by Archbishop Walsh of Dublin which I recommend all to read, gives an intelligent view of the effect of demonetization of silver upon the interests of his people in Ireland. Even the whole of England, particularly those portions where cotton manufacturing, and agriculture form the basis of trade and commerce, are suffering from the terrible effects of the demonetization of silver, bringing in as it does the direct competition of all the silver countries, not only in India and Egypt but in South America.

There is no longer any profit in farming or manufacturing cotton goods in England and we all know how disastrously the competition, fostered and built up by the demonetizatioh and depreciation of silver, has effected our own cotton and wheat fields. The prices of these commodities have fallen in exact ratio with the decline of the London and New York prices for silver. American producers of wheat and cotton and other products which have hitherto formed so vast a proportion of our exports are now, owing to the decline in silver, producing in some instances not over one-third the sum with which to liquidate our foreign debt and the interest thereon and in payment for our imports, that such products of our country netted before silver was demonetized. The loss runs up to hundreds of millions per annum and is one of the principal causes of our present distress and hard times.

We have been feeling the effect of thi competition of Oriental countries where silver alone is used, and not only have felt it, but have caused to fear a still greater encroachment upon our prosperity from this source. The vast population of these Eastern countries, the great variety of climate and productions, the rapid education of the people in agriculture and manufactures, will naturally interfere vastly with the development of our country and its continued prosperty. In fact much of our present distress has been caused by the rapid competition on the part of these silver countries.

And now contrast our present distress with the conditions that would obtain upon the restoration of silver to its former use as a money metal. Could such remonetization be speedily attained by the return of free coinage on the part of Europe as well as ourselves, we all know that an era of prosperity such as this country has never before realized would ensue. The mints would then be open to free coinage, the vast number of mines, both gold and silver, would be worked to their fullest extent, the railroads in every part of the country, especially those leading to the various parts of the west, southwest and northwest, would be habilitated and made profitable, hundreds and thousands of millions of value would be restored in railroad property, farms, mines, etc., and the whole mercantile, farming and manufacturing communities would again resume their old-time prosperity. And if the proposed international bi-metallic conference should prove a failure, my plan would be to at once go back in our own country to bi-metallism, open our mints to the free coinage of silver as well as gold. Let the government enact such regulations as would positively insure that not a dollar of silver produced out of our own country should be imported into another country, except upon the payment of such a duty as would be equal to 5 per cent. greater than the depreciation in the markets of the world of silver bullion, or silver manufactured into any shape. I myself would not be at all afraid of any great influx of silver even if there were no impediments to its importation; but this plan of placing a prohibitive tariff upon it would effectually calm the fears of those weak individuals who express apprehensions of large silver importations and the withdrawal of our gold. We could easily circulate every dollar of the product of our mines, and it would form a natural and needed increase of the circulating medium in our midst. In the search and development for silver, much more gold would be produced than is now forthcoming.

Provision might still be retained for the exchange of currency of small denominations for silver and gold coin to be held in the treasury, and the notes circulated as a great convenience to the people. The expenses of such issues would be a hundredfold compensated for to the government by the destruction in various ways of these issues of notes and the saving of the really important loss on account of abrasion and the disappearance of gold and silver coins through fire, shipwrecks, and other causes. And upon this one point I want to call attention to the error of those statesmen at Washington who aver that the gold and silver now in the treasury is a vast sum of idle money, and particularly as to silver, a depreciated asset. They are wrong. The notes issued are in lieu of the gold and silver deposited, and they should be so regarded. What should be done is this: The coin, being held by the treasury to amount of the notes issued, should be legal tender, and the notes should be expressly issued as mere tokens. However, as they would be redeemable in coin upon presentation, they would be equal to the actual coin to all intents and purposes.

The Howard Church Suit.

The Howard "Hornet" says: Last week we copied from a Philadelphia paper the action of the Supreme Court in the case of the Howard Disciple church suit. Since then we have learned more particulars of the action of that body. All the evidence of the case not being printed in the paper book the court ordered a judgement of nol, pros, entered, which is a compulsory non suit. The case in order to be taken up to the Supreme court again, the defendants must sue out a new appeal which will take another year to decide. This has been a tedious case fought out with considerable bitterness, the cost of which is much more than the value of the property involved. As all parties to the contest must have had their satisfaction at the law, or should have by this time, it would evidence Christian Grace if they would bury the tomahawk and scalping knife by uniting in building up the waste places in Zion. In the Christian philosophy there is no such thing as personal stubbornness, but on the contrary it inculates Love, Peace and Good Will to all men, and especially to those of the faith. We hope, the community hopes, and the Christian churches of all denominations hope, the disagreeing brethern will now reconcile all their past personal and church differences and unite in an endeavor to carry out the commands of Him who gave His life that they might live forever.

Vagaries of the Weather.

The terribly destructive tornado in Iowa has startled the whole country. These disturbances are not uncommon on the Western plains as a concomitant of the first really warm days of spring, but the loss of life entailed by the one on Friday is appalling. Only a few days earlier an unusually fatal storm prevailed further south and the worst feature of it is that the conditions continue favorable for their information.

The unusually warm weather expericenced in this locality for a few days past is due to the same influences that produced those disastrous storms. It is probably a natural compensation for the extreme severity of the past winter. While it is not to be thought of that high temperature will continue uninterruptedly, it will not be surprising if the late spring and early summer are characterized by an excess of caloric.

Good rains would be welcome and beneficial at this time, though if accompanied by high winds much damage might be done. There is also great danger of hail following such intensely warm weather at this season on account of well known climatic laws.

Hate for your enemies and love for Christ never dwell in the same heart.

$100 Reward $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

WHY do people complain of hard times, when any woman or man can make from $5 to $19 a day easily. All have heard of the wonderful success of the Climax Dish Washer; yet many are apt to think they can't make money selling it; but anyone can make money, because every family wants one. One agent has made $478.36 in the last three months, after paying all expenses and attending to regular business besides. You don't have to canvass; as soon as people know you have it for sale they send for a Dish Washer. Address the Climax Mfg. Co., 45 Starr Ave., Columbus, Ohio, for particulars.

CINCINNATI, O.
For sale by F. Potts Green, Bellefonte Pa.

The China-Japan War

It is thought may raise the price of tea and other articles, but we are still furnishing to our customers at the old rates. We take no account of the scrap between the Japs and Chinese, we know some merchants are trying more money to squeeze by advancing the prices of spices and teas, but the old reliable

EUREKA

keeps right along at the same old gait with prices as usual, with everything in the grocery line the best and cheapest in the market. Call and see us—latch string always out—at Eureka Grocery, High Street, next door to post office.

M. P. TUTEN,
Proprietor.

What is
CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

Scrofula

The Worst Case the Doctors Ever Saw

Hood's Sarsaparilla Perfectly Cured

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs:—I wish to testify to the great value of Hood's Sarsaparilla. For some time I had been troubled with scrofula, which early last winter assumed a very bad form.

Sores Appeared on My Face

and hands and gradually increased in number until they reached to my shoulder. The doctors said it was the worst case of scrofula they ever saw and also went so far as to say it was incurable. I tried ointments and other remedies but to no avail. A friend recommended Hood's

Hood's Sarsaparilla Cures

Sarsaparilla, and although I was completely discouraged, as a last chance I resolved to give it a trial. After taking one bottle I noticed the sores had commenced to heal. After the sixth bottle

They Were All Healed.

I continued to take it, however, until I had used nine bottles, and now I am perfectly well." Miss Katie Rosengrant, Ulster, Penn.

Hood's Pills are prompt and efficient, yet easy in action. Sold by all druggists. 25c.

Y. M. C. A. MATTERS.

Mr. Cota Will Stay Here—A Big Picnic to be Held June 20th.

That the Christian people of Bellefonte do not intend to let the Young Men's Christian Association die a natural death was evidenced by the full attendance at the Directors' meeting held Monday evening and which was called to consider the resignation of Secretary Cota. After considerable discussion of the general status of the association, its work here, and especially of the excellent services of Mr. Cota, the Board passed the following resolution:

"The resignation of our General Secretary having been presented to the Board by the President, in accordance with the request of the Secretary, said resignation to take effect June 1st, it was unanimously resolved by the Board that in view of the exceptionally acceptable service rendered by Mr. Cota to the Association and to the community, in view of the attachment of our young men and members of the Junior Branch to him personally, and in view of their appreciation of his work in the Association, and in view also of the general expression of opinion in the community, by the friends of the Association, by the mothers of the boys of the town, and by many persons having no connection with the Association in any way, it is deemed inexpedient to accept Mr. Cota's resignation, believing, as the members of the Board do, that it was offered under a misapprehension of the facts, and that Mr. Cota be respectfully requested to withdraw the same, the Board hereby pledging themselves to hearty co-operation with him in accomplishing the results which he feels have not yet been attained."

This will more than likely result in Mr. Cota withdrawing his resignation and remaining with the Association indefinitely.

In addition to the above some other miscellaneous business was transacted and then the Board tood under discussion the advisability of holding that picnic at Hecla park which was to have been held last fall, but was postponed on account of the lateness of the season, and it was decided to hold the same on Thursday, June 20th. According to the plan in mind, it will be a big affair. All the Y. M. C. A's, the Christian Endeavor Societies, the Epworth Leagues, and other christian organizations in the neighboring counties of Clinton and Lycoming, and also in Centre, will be invited to be present and participate in the religious festivities of the day. A fine program of addresses will be prepared and many prominent christian workers will be invited to be present, among whom will be Mr. John Wanamaker, of Philadelphia. It will be in the shape of a basket picnic, but refreshments will also be served on the ground during the day.

—Mr. Charles E. Hall, a cousin of Mrs. B. C. Achenbach who visited in Bellefonte died on April 13th at San Diego, Cal. Mr. Hall was the young gentleman who was to meet Dr. Charles Rhone on his arrival in that coast state.

SPRAINS' Positive
and NEURALGIA'S Cure
ST. JACOBS OIL

The Jingo Subsidence.

The settlement of the English dispute with Nicaragua puts the episode so far as it bears on this country in the light of an opportunity for the jingoes to make a display of themselves. Just about the time this class got in full blast with their discovery of English intention to permanently occupy Nicaragua and "control the canal," England accepted the guarantee of satisfaction for the attack on her diplomatic representative, and evacuated Corinto as had been promised. The bray has been silenced temporarily, but will break out again on the least provocation.

The jingo pugnacity was reduced to quiescence in one quarter by the timely application of a little ridicule. The Connecticut Senate having delivered itself of a resolution that the British should be forced to leave Nicaragua "by American guns from an American," one Gunn, the leader of the Connecticut House of Representatives, went off in a way that silenced the jingo battery. Representative Gunn moved to add to the resolution that the Governor's Horse Guards of Hartford and the second company Goyernor's Foot Guards of New Haven be embarked on the East Hartford bridge, and floated off to Nicaragua to expel the British. The suggestion was sufficient to extinguish the jingo pugnacity. But in the next jingo outbreak, Senator John P. Morgan and the vocal fighters of the jingo press should be especially detailed to go on the expedition.

Foster on the Weather.

My last bulletin gave forecast of the storm waves to cross the continent from 5th to 8th and 10th to 14th. The next will reach the Pacific coast about the 14th cross the west of the Rockies country by close of 15th, great central valleys 16th to 18th and eastern states 19th. This disturbance will bring some of the heaviest rains of the month, but these rains will not generally occur where most needed. The tendency will be decidedly toward too much rain in the southeastern states and a deficiency toward the northwest. Warm waves will cross the west of Rockies country about 14th, great central valleys 16th and eastern states 18th. Cool wave will cross west of Rockies country about 17th, great central valleys 19th and eastern states 21st.

A Good Testimonial.

(From Haverhill, N. H., Courier.)

"I have had for twenty-seven years past, a badly diseased ankle bone. Dr. David Kennedy's Favorite Remedy and his Salt Rheum Cream healed it when all other medicines had failed, and medical authority had said the limb could never be well enough to use again.

A sore broke out on the ankle bone, and for ten months the aged writer suffered day and night beyond the power of words to express. A friend advised me to try Dr. David Kennedy's Favorite Remedy. I had no faith that any medicine would help me, but suffering as I did I thought I would try it, and purchased some, also a box of Dr. David Kennedy's Salt Rheum Cream. I used these medicines but a short time, when my limb began to heal. I will further add, among the many medicines which I have tried for a diseased liver and kidneys, none has ever proved so helpful to me as Favorite Remedy. By stimulating and strengthening the enfeebled organs, even the encroachments of advanced age seem to be checked by its invigorating power.

I have thoroughly tested its true worth, and I know whereof I affirm, as the aged writer has, by using Dr. David Kennedy's Favorite Remedy, been given very comfortable health for a person 70 years of age. The Favorite Remedy is an invaluable medicine for children as well as adults, and is as safe as it is sure.

This testimonial is given from my own experience of these invaluable medicines." Mrs. Bylinda Hodson, Haverhill. N. H.

No tribute to the efficacy of a medicine could be greater than these words of Mrs. Hodson, who voluntarily tells the story of her recovery. Thousands of men and women whose daily life is making severe draughts on their vitality need Dr. David Kennedy's Favorite Remedy. None are too old to be helped by it, it permanently cures dyspepsia, rheumatism, kidney liver and urinary troubles, for the ills peculiar to women it has no equal.

Coin's Financial School, the greatest book ever published, on sale at Bush's. m1-tf

WHAT YOU NEED.

If You Have Bad Breath,

sluggish bowels, pain in the small of the back, discolored skin, lassitude, nervousness or dizziness, you may be very certain that your vital organs are sadly out of condition and that only constitutional treatment will do you any good. A mere "dose of physic" will not help you. Your only wise course is to take a potent alternative medicine that will cleanse your system of the impurities that clog the life-channels and restore vigor and health. To do this there is nothing so effective as Dr. David Kennedy's Favorite Remedy. It has been thoroughly tested and found to be the safest relief that is known for all disorders of the Stomach, Bowels, Liver and Kidneys. In its action upon the latter it is especially potent, effecting the most remarkable cures.

"Nothing Venture, Nothing Have."

Rev. John Reid, Jr., of Great Falls, Mon., recommended Ely's Cream Balm to me. I can emphasize his statement, "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Press. Church, Helena, Mon.

It is the medicine above all others for catarrh, and is worth its weight in gold. I can use Ely's Cream Balm with safety and it does all that is claimed for it.—B.W. Sperry, Hartford, Conn.

"Barcarole"—3.

Roads and Millage.

Senator Flinn's road bill, drawn on the plan of giving to counties desiring to improve their roads the authority to do so on their own account, is based on an indisputable proposition. Unless something can be found in its details not in accordance with that general purpose, the Legislature should vouchsafe at least that measure of road reform to counties progressive enough to build permanent highways at their own cost.

Nevertheless the publications concerning the bill present an example of the persistence of error. The first publication concerning it represented it as enacting that counties taking action under its authority should levy a road tax of "not less than one mill." This was at once stated to be an error, the intention being to make the levy "not more than one mill." But a cotemporary yesterday in an editorial article ably arguing the benefit of the measure repeated the original assertion, stating that the County Commissioners "are empowered to levy a special county road tax of not less than one mill."

The repetition of this assertion makes it important to have the matter placed beyond dispute. The Dispatch is in favor of the bill as it understands the measure. But if this provision is as it has been twice stated and once contradicted, it is a grave mistake. It should not be obligatory on Allegheny county to levy a special tax of $475,000 for every year in which it desires to do some road construction. We must also protest that the roads should be built cheaper than the reported estimate of $10,000 per mile. A tax of $475,000 ought to build nearly a hundred miles of road, and in some years it might be advisable to construct only twenty or thirty.

The bill should be made indisputable in its details and passed. That being done, the preservation of the good roads should be guarded by establishing some authority to regulate the width of tires on heavily loaded wagons.

Club Reception.

On Friday evening, May 10th, the members of the Adelphi Club, at State College, will hold a reception at University Inn. The patronesses for the occasion will be Mrs. C. W. Callaway, Mrs. G. S. Good, Mrs. T. W. Kinkaid, Miss H. A. McElwain, Mrs. W. F. Reeder, Mrs. J. L. Spangler and Mrs. E. E. Sparks. The Adelphi Club is a purely social organization and they give some splendid receptions.

The pleasure of the world is the magic wand that rules it.

APPROVAL

THE SEAL

Of approval of 25,000 prominent physicians has been placed on Bovinine, the original raw food. It is acknowledged by them to be one of their greatest factors in the cure of all wasting diseases.

Bovinine

Is not a medicine, but a strength and flesh producer, giving to the patient at a critical moment the real strength—not that of a stimulant,—to tide over the crisis, and make the physician's skill available. For convalescent cases, chronic invalids and infants, Bovinine is invaluable. Sold at all druggists. The Bovinine Co., New York.

Congressional Apportionment.

The Congressional apportionment bil was reported to the House yesterday The addition of the two districts has necessitated a change in the numbers as follows:

Chester and Delaware constitute the Seventh district; Montgomery and Bucks the Eighth; Northampton, Monroe, Pike and Carbon the Ninth; Berks and Lehigh, the Tenth; Lancaster the Eleventh; Lackawanna the Twelfth; Luzerne the Thirteenth; Schuylkill the Fourteenth; Perry, Dauphin and Lebanon the Fifteenth; Bradford, Susquehanna, Wayne and Wyoming the Sixteenth; Tioga, Potter, Lycoming, Clinton, the Seventeenth; Columbia, Montour, Northumberland and Sullivan the Eighteenth; Huntingdon, Mifflin, Juniata, Snyder, Union, Franklin and Fulton the Nineteenth; Adams, York and Cumberland the Twentieth; Cambria, Blair, Somerset and Bradford the Twenty-first; Westmoreland, Indiana, Armstrong and Jefferson the Twenty-second; Allegheny the Twenty-third, Twenty-fourth and Twenty-fifth; Fayette, Washington and Greene the Twenty-sixth; Beaver, Lawrence, Mercer and Butler the Twenty-seventh; Crawford and Erie the Twenty-eigth; Venango, Warren, McKean Cameron, Clarion and Forest the Twenty-ninth, and Clearfield, Centre and Elk the Thirtieth.

Origin of "Viz."

The contraction "viz," is a curious instance of the university of arbitary signs. There are few writers who do not appreciate the fact that the little contraction may be used in "good form" writing of all kinds, but there are probably even fewer persons who have any idea of its origin. It is a corruption of the word videlicet, the terminal letter of which was made in the shape of a "z," but was never intended to represent that letter, being simply used as a mark or sign of abbreviation. It is now always written and expressed as "z," and will doubtless continue to be so used as long as written language exists. It is, however, as we have said, one of the many arbitrary modes of expression used by the masses, who never give a thought as to their origin.

Now Ready to Repent.

Lebanon, Pa., May 3.—Charles Garrett, the wife murderer, spent an hour in prayer with his spiritual advisers, Revs. Selp and Schmauck. He said: "I have had a hard time of it all my life and I want to prepare myself if I can so that I will have it better in the other world." The scaffold was erected to-day by a gang of workmen.

DON'T STOP TOBACCO.

How to Cure Yourself While Using the Weed.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user, becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully conpounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want while taking Baco-Curo, it will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes or refund the money with 10 per cent. interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke. Sold by all druggists, with our ironclad guarantee, at $1.00 per box, three boxes, (thirty days' treatment,) $2.50, or sent direct upon receipt of price. Send six two-cent stamps for sample box. Booklets and proofs free. Address, Eureka Chemical and Manufacturing company, Manufacturing Chemists, La Crosse, Wisconsin.

m4-6m

Methodist Quarterly Meeting.

There is to be a quarterly service in the Methodist church at Axe Mann, beginning Friday evening with a preaching service. The quarterly conference will be held Saturday morning at 10.30 o'clock. There will be preaching Saturday evening by the pastor. Sunday evening Presiding Elder D. S. Monroe will preach. There will be communion service at the same time. Monday evening there will be a service with Rev. J. W. Rue as preacher. On Tuesday evening the sermon will be delivered by Rev. H. A. Grant, pastor of the A. M. E. church. Other prominent ministers are expected.

How to Mail Letters.

"Don't mail your letters or valuable packages without having your own address printed upon the upper left hand corner." This is the advice that Frank H. Jones, the first assistant postmaster general, gives to all persons who have business with the postoffice department. By having your address printed on your envelopes you will insure the return to you of every letter that is not delivered and you will prevent them being sent to and opened at the dead letter office.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.

TOLEDO SILVER CO, TOLEDO, O.

Children Cry for Pitcher's Castoria.

SULPHUR BITTERS

The Greatest Blood Purifier KNOWN.

This Great German Medicine is the cheapest and best. 128 doses of SULPHUR BITTERS for $1.00, less than one cent a dose. ALL IS NOW SERENE:

Great Britain Gets Its Price for the Pound of Flesh:

Washington, May 2.—The Nicaraguan incident, rowing out of the British occupation of Corinto, was practically and happily settled to-day, seemingly through the good offices of the Salvadorean minister to Great Britian and France, who arrived in London from Paris this morning and had an interview with Lord Kimberly, the British foreign secretary.

It is understood that Ambassador Bayard was present at this meeting, although the statement of Sir Edward Gray in the house of commons to-day that the United States had not suggested terms for an amicable settlement would indicate that Mr. Bayard was only present as amicus curiae. The conference between Lord Kimberley and Mr. Medina, the minister from San Salvador, resulted in a definite arrangement of terms for the settlement of the trouble at Corinto, the substance of which was immediately cabled to Secretary Gresham by Mr. Bayard. In the dispatch he said Great Britian had accepted the guarantee made by Salvador of the payment of the indemnity $77,500 demanded by Great Britain, the payment to be made by Nicaragua in London within a fortnight, and the British government agreeing that as soon as Nicaragua confirmed this promise to pay and informed the British admiral in charge of the naval forces at Corinto, of that fact, the admiral would be instructed to withdraw not only the force of marines which, under command of Captain French, now hold possession of the custom house and other government buildings, at Corinto, but also to move his war ships from the harbor.

News From Cuba.

Jacksonville, Pa., May 2.—A cablegram from Key West, Fla., says: Private advices to this city by steamship Olivette, last night state that Havanna, where one month ago matters had an every day appearance, is to-day in a fever of excitement. Many young men of the best families are joining the insurgents and students are leaving college for the same purpose. Jose Maceo, reported by a Spanish newspaper to have committed suicide, has taken the field at the head of 700 men. In a battle in the province of Guantananio, Maceo defeated Colonel Bosch, commanding 300 Spanish troops, with heavy loss. It is reported in Havana that Colonel Santocildes, a distinguished officer of the Spanish army has been captured by General Maceo and held prisoner.

Maximo Gomez, commanding 1,000 men, is reported moving towards Camaguay, in Puerto Principe. The spanish capitalists, knowing the true situation in Cuba, are shipping money out of the country for safety. Business, in consequence of the spreading enthusiasm in favor of the Cubans, is becoming more depressed every day.

The Rebels Receiving Recruits.

Jacksonville, Fla., May 5.—A cablegram to the Times-Union from Key West, Fla., says: "There is great difficulty in getting news to the public. All correspondence is revised by the Spanish authorities and many facts are withheld.

The Spanish government finds great difficulty in getting provisions, etc., to troops at Bayamo. All the fortifications around Manzanilla have been destroyed by the insurgents. The province is virtually in their hands.

The battle at Ramon Jaguas on April 19, according to an eye witness, was terrible. The Spanish troops were almost annihilated. The battle lasted nearly three hours. The insurgents lost fifty men.

The belief is general that the revolutionists will be greatly strengthened. Two bands of five hundred in the province of Santa Clara have joined the insurgents.

Thirteen Passengers Injured.

Little Rock, Ark., May 5.—A wild engine collided with a passenger train on the St. Louis, Iron Mountain and Southern road, near Clarksville yesterday afternoon and in the ensuing wreck thirteen passengers were injured, none, however, fatally. The accident was due to the carelessness of Engineer Wilbanks, who was at the throttle of a locomotive drawing a freight train. He was to meet the passenger train at Clarksville and was under orders to side track there. Leaving his train on the main track, however, he stepped into the telegraph office to make inquiry as to the whereabouts of the passenger. The fireman also stepped off for a moment and while the engine was thus deserted the throttle flew open and the engine started off up the track at full speed. It met the passenger train but a short distance out of Clarksville when the collision occurred.

Shortlidge to be Released.

Norristown, Pa., May 5.—Professor Swithin C. Shortlidge of Media, who shot and killed his wife there a little more than a year ago, will to-morrow be taken home He will make application to the Delaware county court for an order for his release from the insane hospital. There is a diversity of opinion among the asylum trustees as to the regularity of this section, some of them holding that the hospital records show Professor Shortlidge to have been committed as an indigent patient, the court has no jurisdiction. Should the court hold that he was committed as a criminal patient, Mr. Elliott contends an order for the professor's release must be sanctioned by a unanimous vote of the trustees before it can become operative.

MINING POWDER EXPLOSION.

One Boy Fatally Burned and Two Others Seriously Burned.

A very sad accident occurred on Monday afternoon near the home of Samuel Twigg at Sandy Ridge. The two sons of George Pfoutz, Charley and Johnnie, aged 3 and 8 years, and Troy Twigg, aged 7 years, the son of Wm. J. Twigg, were burned by an explosion of mining powder, which resulted in the death of the latter.

Troy, who had been raised under the care of his grandparents, Mr. and Mrs. Samuel Twigg, was inclined to be near the railroad. On the day mentioned his grandfather induced him to try and dig out a stump so as to keep him from the railroad. Troy and his playmates went with good earnest at their work, but could not accomplish the task. Somehow he got to know of a keg of mining powder which was kept in a nearby stable for safety. He at once went in search of the same and it is still a mystery how he got possession of it as the stable was locked and the powder was up in the loft. At any rate he returned with both of his pockets and hat filled. At first he tried to light a handfull of it with a match, and being unsuccessful in this he threw the hat full on the burning match and the immediate explosion followed. His hands were burned to a crisp and his face was beyond recognition. The other two boys were severely burned about the face, hands and legs. Dr. Emigh, of this place, was at once summoned and the utmost attention and care was given, but in spite of all Troy passed away at 6 o'clock last evening. Dr. Reed, of Osceola, who is attending the Pfoutz boys, pronounces the injuries of the oldest one very critical and his recovery is very doubtful.

The loss of Troy to his grandparents is deeply felt, as he was the pride and comfort of their home. The sympathy of their many friends and relatives is with them.

Troy Twigg was buried Thursday afternoon in the Philipsburg cemetery, leaving the home of Samuel Twigg at 2 o'clock. —Philipsburg *Journal*.

The Bellefonte Centennial.

Pursuant to the call in the DAILY NEWS an enthuastic meeting of the Committee on Relics was held in the rooms of the W. C. T. U. in Crider's Exchange, last Friday evening. The lady members of the Committee were on hand full of earnestness and interest, which is an assurance of success. On motion of Mr. Geo. L. Potter the ladies were authorized to appoint such sub-committees as they may find necessary in their work, and to secure the grant of relics and curios for the occasion.

A suitable room will be secured for the arranging and exhibition, trustworthy policemen will be engaged and all possible care taken of the articles entrusted to this committee, and it is hoped that the hearty co-operation of all the people will be manifested, in proffering all ancient and curious articles in their posession. It is the intention to charge a small admission fee and donate the proceeds to the Women's Improvement Association of Bellefonte. Until a secretary is secured all correspondence with the committee may be addressed to the undersigned. We will be pleased to hear from everybody having or knowing of anything that will add to the interest of this department. The Committee will meet again at the same place next Friday at 7.30 p. m. A full attendance is requested.

IRA C. MITCHELL, Chairman.

Reduced Rates to Denver.

For the accommodation of persons who desire to visit Colorado on the occasion of the meeting of the National Educational Association, at Denver, Col., July 5 to 12, the Pennsylvania Railroad Company will sell excursion tickets on July 3, 4 and 5, to Denver, Colorado Springs, Moniton, and Pueblo, at the extremely low rate of $50.72 from New York, $49.25 from Philadelphia, $47.50 from Baltimore and Washington, $47.25 from Harrisburg; proportionate rates from other points.

These tickets will be good for return passage from Colorado points on July 12, 13, 14, and 15, with an extension until September 1, if desired.

A special train of Pullman Buffet Sleeping cars will be run, leaving New York at 10.10 a. m., July 4 stopping at prominent intermediate points, and arriving at Denver on the afternoon of July 6.

This affords a grand opportunity for a trip to the world renowned Rocky Mountain resorts in Colorado at a comparatively small cost.

Marriage Licenses.

William H. Knarr, of Pine Grove Mills and Minnie B. Tyson, of Ferguson township.

Jasper N. Gill, of Pleasant Gap, and Ida A. Miller, of Bellefonte.

Wm. H. Myers, of Boalsburg, and Elizabeth Weaver, of Oak Hall.

Mark Pedrick, of Wilmington, Del., and Mary E. Beates, of Benner twp.

H. N. Hoy, of Benner twp., and Sallie Garbrick, of College twp.

Harry H. Wagner, of Chester Hill, Clearfield county, and Beulah Stine, of South Philipsburg.

John F. Garner, of State College, and Margaret Wise, of Fillmore.

Frank Warfield and Emily Elliot Harris, of Bellefonte.

Peaches vs. Wheat.

If the experiments now being made in Penns valley, to raise peaches turn out successfully, there will be a boom in that direction among many of our farmers to raise peaches and let wheat go by as a staple product. An average crop of peaches will bring ten dollars in cash to one in wheat, leaving the peach farmer a margin good enough to stand an occasional failure of the peach crop.

An acre of wheat, at best, will not average over ten dollars. An acre of peach trees, 250 trees to the acre, at an average of one bushel per tree, would be 250 bushels. These at an average price of 40 cents in the orchard, would be worth $100. So its a question of $100 in peaches as against $10 in wheat.

But say you average only half this sum in peaches from frost damage to crop, and you still have $50 in peaches to $10 in wheat—a better result than ever realized in the best days of wheat.

We know of at least three parties in this valley who have planted peach orchards and one of these has 3000 trees out now in their fourth year, and this summer expected to be in their first regular bearing condition.

Young trees have been bought at $6 per 100. Hope the experiment will prove a success.

Our neighbors over in Juniata county have found raising peaches a paying success and thousands of bushels are shipped every season, some of them finding their way into this county and are sold here as high as $1.50 per bushel. Snyder county farmers have likewise begun to raise peaches with good success.

If Penns valley can be made to produce a fair crop of peaches, it would not be long until a new industry would follow, namely, canning establishments to give employment to persons of both sexes in canning peaches and all kinds of fruit, berries, corn and vegetables—and there always is a ready market for all these.—*Centre Reporter*.

Secretary Cota Resigns.

On monday Mr. F. H. Cota handed in his resignation as general secretary of the Bellefonte Young Men's Christian Association, to take effect the first of June. For Mr. Cota it can be said that he has labored indefatiguably ever since he has been in Bellefonte for the success of the Association and if there has at any time been anything lacking it was not in him. He has given the work the most able moral and spiritual support combined with an unusual and extraordinary amount of hard work in every department and when he leaves Bellefonte the people of the town will only realize what they have lost by his going.

But this is only the more shame on the Christian people of this community, who make pretensions and fail in living up to them. If they want a Y. M. C. A. in Bellefonte it can only be had by the proper kind of support. It costs money to keep open such an organization, but must this fact stand comparison with the incalculable amount of good it may and does do? The men keep open other places of amusement in Bellefonte find the money to do it, but so long as the Y. M. C. A. is not self-supporting there must be contributions, and these must come from the people deeply interested. Are they going to allow the association rooms to be closed? Can they afford to do it? If so, then every man and woman should take a back seat in the synagogue.

Reduced Rates to Philadelphia via Pennsylvania Railroad.

On the occasion of the dedication of the Odd Fellows' Temple at Philadelphia, May 21, 1895, the Pennsylvania Railroad Company will sell, on May 20 and 21, excursion tickets to Philadelphia and return from all points on its system east of Pittsburg and Erie, north of Quantico and south of Canandaigua, inclusive, *at a single fare for the round trip*, with minimum rate of fifty cents. Tickets will be good for return passage until May 23 inclusive.

This rate is open to the public, and offers an excellent opportunity for a visit to Philadelphia at a very small cost.

Fast and frequent express trains run from Philadelphia to all principal New Jersey seashore resorts.

Marriage has always been the conclusion of love.

Nicaragua's Way Out.

The statement that Nicaragua will pay the amount demanded by England as damages for the expulsion of the English Consul, if England will withdraw her forces from Corinto, is confirmed by the telegraphic news to day. This carries with it a strong inference that the summary measures adopted by the English Government have been effective.

Of course with a proper assurance that Nicaragua will keep its word this agreement will leave England no excuse for a longer occupation of the Nicaraguan port. Lord Kimberley has given specific assurance that England will do nothing more than enforce respect for her diplomatic representatives and secure the adjustment of the dispute. While the English cabinet may excusably decline to accept the Nicaraguan promise without more tangible security, she is bound to withdraw if the promise is made good.

Should England show a disposition to continue the occupation after the money has been secured or paid, it will then be time to bring the Monroe doctrine into action. But until such an intention of permanent occupation is made manifest the Monroe doctrine has nothing to do with the affair.

The First Telegraph Line.

How many persons recall the fact that to-day is the anniversary of the electric telegraph? How many know that the telegraph is but fifty-one years old? Yet such is the case. On May 1, 1844, the nomination of Henry Clay for President by the Whig convention in Baltimore was announced in Washington. The news was sent by telegraph. The line between Washington and Baltimore was then in process of construction by Prof. S. F. Morse. It was the first news message over the first line of telegraph, less than forty miles in length, and was sent fifty-one years ago to-day. I was at that convention. If there is another man in the county that was there, let me hear from him.

They Will Miss Him.

On last Sunday the Methodist Sunday school unanimously adopted the following:

WHEREAS, It has pleased God, in his great wisdom, to take out of the world and from among us Morris McCafferty, a faithful member of our Sabbath school and one whom we have learned to love on account of his faithfulness and genial disposition. Therefore, be it

Resolved, That while we bow in humble submission to the divine will, knowing that God doeth all things well, we mourn the sad providence that so suddenly called him home. We shall ever remember his pleasant and smiling face and, while we shall miss him as we go in and out, we trust that we shall meet him again in that home which Christ has gone to prepare for those that love him here.

Diminutive Cattle.

The Curwensville Review says Michael Cassidy, of Pike township, is the owner of the smallest cow and calf in this section. The cow is a calf from J. A. McIntyre's full blooded Jersey and is three years old, about as big as a good sized sheep. The calf is nearly five weeks old and a ten year old boy could pick it up and carry it easily. Quite a number of people have visited the Cassidy place to see these diminutive beasts.

For Thin Children.

Children are always thin and pale when they do not assimilate enough fat. This seems strange, perhaps, but it is literally true. Unless there is a healthy assimilation of fat food the blood becomes depleted, tissues waste away, vitality becomes low and the body languishes for the need of proper nourishment.

Scott's Emulsion

is useful to children, especially in two ways. It is Cod-liver Oil emulsionized, thus being easily assimilated and rendered palatable, with the Hypophosphites of Lime and Soda added to tone up the nervous system and nourish the bones. This combination of these potent nutrients is just what thin children need to give them flesh, color and vitality. Almost all children like it.

Don't be persuaded to accept a substitute!

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.

Correspondents should write upon but one side of the paper, and avoid the use of pale or colored inks.

EDWARD T. TUTEN.

Local Department.

—There are now eleven soldiers buried in the G. A. R. lot in Union cemetery.

—The air is now redolent with the fragrant perfume of the blossoms of many trees.

—A new and improved roof has been put on the house of Mr. Beck, in Spring township.

—There is every indication of an immense fruit crop this year. And a good thing it will be, too.

—Undertakers Henry Harris and Son had two funerals Thursday afternoon inside of as many hours.

—State College defeated Dickinson Friday afternoon by the score of 7 to 4. It was a well played game all through.

—The Clearfield "Public Spirit says: Clearfield firemen will go to Bellefonte next month in fine style and in good shape to compete for the first prize as the best uniformed and best drilled company.

—The Valentine furnace *was* put in operation on Monday, according to previous announcement, the men going on regular turn at 6 o'clock in the evening. Bellefonte tradesmen will benefit to a certain extent by this resumption.

—Bellefonters may now see where they missed it by not getting Parker and his shirt factory here. The establishment is now turning out silk waists in addition to shirts, and selling them as fast as they can be made. Good for Parker.

—Thursday night the house owned by a Mr. McElwain, located near Wallace's brick works at Milesburg, was totally destroyed by fire. The family who had occupied the same had just moved out in the morning. The fire originated at the flue.

—Mr. C. C. Shuey must be anticipating a war of some character, if one can judge from the substantial stone fort he has had erected to the front of his recently acquired property on High street. Its appearance is certainly one more of durability than beauty.

—There now seems to be only one paper in Bellefonte which is continually adding new subscribers to its list. And, if it has as many names as it has given notice of through its columns from week to week, it has a circulation big enough to rival many of the city papers.

—The case of J. Weber, vs Mrs. David Sparr was settled in favor of the plaintiff without going to trial. Mr. Weber had brought suit to secure the title to a house and lot given to him by David Sparr before death, but which was contested by the wife of the deceased.

—Our friend P. Gray Meek, with other patriots who are serving their country in an official capacity at Philadelphia, having become tired of hotel life have established bachelor's hall in a quiet neighborhood where they can enjoy the pleasures of bachelor life unmolested.

—Prof. Lowell Meyer, the well known vocalist, who for years has been a prominent figure at musical conventions in this part of the state and well known to many of our readers, has been in a critical condition the past week and his recovery is doubtful. A diseased left arm is the cause of his trouble which seems to have affected his system.

—A handsome new soda fountain at Krumrine's drug store is quite an attraction. In design it is something entirely new, being circular and of oxydized silver. The top has a beautiful figure spray-fountain, surrounded by a number of colored lights. Of course the draughts of sparkling beverages are equally as appetizing as the fountain is beautiful.

—The district stewards of the Altoona district, Methodist Episcopal church, met in the First church, Tyrone, Thursday afternoon, with Dr. D. S. Monroe, presiding elder, in the chair, and J. A. Hedding Morrisdale, secretary. The salary of the presiding elder was fixed at $2,500 for this year, the same as last, and this amount was apportioned among the appointments of the district. J. A. Hedding was elected conference steward.

—A nervy house breaker climbed up a ladder and broke the window in the second story of William Kessenger's house at Salona, shortly after 8 o'clock, on Saturday evening. After ransacking every room upstairs and securing something over $4 he crawled out again and the family, that had been on the floor below all the time, never knew it till they started to go to bed. The thief missed a purse containing $75.

—The court house ring has organized a singing school and are now purchasing the latest productions in sheet music, but they are most in love with "When Summer Comes Again." Dr. McEntire is leader, then there are a whole lot of sopranos, tenors, contraltos, bassos (Treasurer Miles is one of the latter) but the greater majority of the class have mixed voices—some of them pretty badly mixed. But they all enjoy it, and there are no chickens roosting near the court house—the fowls are too wise.

—Tramp printers are numerous these days.

—Lycoming county will build a handsome building for its centennial.

—The small boy is saving up his pennies for the circus at Milesburg next Monday.

—A. W. Askew, of Altoona, has been granted a patent on a fountain marking-pen.

—Col. Amos Mullen is now filling the position of weighmaster at the Valentine furnace.

—And at last, after almost two years of waiting, the residents of South Potter street are to be favored with a new board-walk.

—Walter L. Main's circus and menagerie will visit Bellefonte on Monday, May 27th, if all reports are correct, coming here from Johnstown.

—J. M. Keichline, Esq., has opened a collection agency in Bellefonte, and Peter is assisting him in making collections to the best of his ability.

—Sunday was a pretty warm day for the 5th day of May, the thermometer standing 86 degrees in the shade. It made one feel very much Fourth-of July like.

—Lock Haven Normal school defeated the State College second nine at State College Saturday afternoon by a score of 16 to 14, and the L. H. N. S. boys were jubilant.

—There will be a special meeting of Bellefonte Castle, K. G. E. next Monday evening, instead of on Tuesday evening, owing to the excursion to Williamsport on the latter named day.

—Boom the coming centennial in every way possible. Keep talking about it, work for it, give what you can toward it, and everybody will enjoy themselves and be happy when the time comes.

—Philipsburgers are petitioning their town council to repeal the recently passed ordinance prohibting cows from running at large on the streets. Evidently there are some 18th century residents living over there.

—Every boy and young man in Bellefonte who can command a few dollars is figuring on keeping a peanut and lemonade stand on some corner during Bellefonte's centennial. The Chief Burgess is completely overwhelmed with applications for space on all the main streets and by-ways.

—A special from Harrisburg recently stated that Edward B. Rankin had been given an appointment in the State insurance department at Harrisburg. Of course this will necessitate his resigning as the manager of the Western Union telegraph office in this place, and it is not yet definitely known who may be appointed to succeed him.

—The inter-collegiate state athletic sports will be held at State College on Saturday, May 18th. The meet was to have been held in Harrisburg this year, but, owing to the bad condition of the grounds it was deemed advisable to hold it somewhere else and State offering to contribute $175 to the State association and furnish all the medals, secured the sports for that place.

—The weekly telegraphic crop report bulletins of the department of agriculture shows that generally the week has been very favorable. Rain is greatly needed in Ohio and the greater portion of Pennsylvania. Detailed reports from Pennsylvania show that grass, grain, potatoes and garden truck are in excellent condition; considerable corn planted; rain needed in most sections.

—The Bellefonte Castle and Bellefonte Commandery, K. G. E., will go to Williamsport on Tuesday, May 16th, to attend a large gathering of the Order in that place. They will go in a special train over the Central Railroad of Pennsylvania, leaving Bellefonte at 7.45 a. m., and returning the same night. The fare for the round trip will be $1.52.

—Sherdian Troop, Tyrone, was inspected Saturday and, in speaking of it the *Herald* says: "Colonel Reynolds, aid-de-camp on the staff of the commander in chief, Governor Hastings, was present at the inspection and enjoyed it. The colonel is one of Bellefonte's live men, who takes an interest in military in a very substantial way. Company B of the Fifth regiment is indebted to him for their handsome army at Bellefonte."

—Work on the new glass works at Huntingdon has begun in earnest. The location of the works is on the north side of Fourteenth street, extending from Oneida street to Scott, a distance of 315 feet, and in depth from Fourteenth 200 feet, embracing eight lots, or half a block. There will be eight buildings, the dimensions of the four largest of which, in feet, will be as follows: 12x24, 46x46, 20x75 and 25x50. The others will be lime, sand, coal and storage houses.

—As will be seen from the report of council proceedings in another column Rev. James P. Hughes is in a serious dilemma. He is troubled a good bit with cows running at large in the immediate vicinity of the Academy, and to keep them from doing damage he is obliged to corral the animals; but then is the time he does not know what to do with them—whether to milk them or not to, Why, of course, milk them. And, if you get more of the lacteal fluid than you can use, start a dairy wagon—there's money in it—and in that way get pay for your trouble.

WEDDED THURSDAY EVENING.

The Marriage Nuptials of E. R. Rankin and Miss Annie Stott.

Cupid shoots his darts and the hearts of the young are unable to resist them. In this time of numerous weddings Mr. Edward B. Rankin took the advice of his numerous friends to "go and do likewise," and the ceremony on Thursday evening which united in marriage Mr. Rankin and Miss Annie Stott, daughter of Mr. and Mrs. James Stott, was a very pretty and fitting one. It took place at the home of the bride's parents, corner of Bishop and Spring streets, at 7 o'clock, and was performed by Rev. William Laurie, D. D., of the Presbyterian church.

The parlors were handsomely decorated for the occasion and well filled with guests, the immediate relatives and friends of the contracting parties. The ceremony and congratulations over, the entire party partook of a most bounteous wedding dinner after which the happy couple departed on the 8.42 train for a brief tour through eastern cities.

Miss Stott, the bride is an accomplished young lady. During several years she was one of the efficient teachers in the Bellefonte schools, but resigned at the expiration of last year's term. She is in every way a fit helpmate for the man of her choice. Mr. Rankin is a son of Mr. James Rankin, deceased, and a brother of Mrs. D. H. Hastings. During the past eight or nine years he has been general manager of the Western Union telegraph office in this place, which position, it is reported, he will soon resign to accept an appointment in the insurance department at Harrisburg.

The presents received by the bride were both valuable and numerous. Among the guests present were Mrs. D. H. Hastings, of Harrisburg; and Mrs. R. A. Kinsloe, of Philipsburg. The DAILY NEWS tenders congratulations.

Funeral of John Powers.

On Thursday afternoon the funeral services over the remains of John Powers, took place at his late residence on Spring street, at 3 o'clock, and was entirely under the charge of the Bellefonte Lodge I. O. O. F. This organization met at their hall at 2.30 o'clock and at 3 o'clock fully fifty strong, wearing the badge of mourning and under the marshalship of Dr. H. K. Hoy, marched to the residence.

The house was already well filled with sorrowing friends who had come to pay their last tribute of respect to the dead. The coffin, a handsome black cloth-covered one, in which the remains reposed, was almost covered with floral offerings. The services consisted entirely of the Odd Fellows' burial ritual, probably the only occasion on which it had ever been fully used in Bellefonte. There was appropriate music by a male choir, and the reading of the funeral service was done by acting Noble Grand W. I. Fleming and acting Chaplain H. B. Pontius. The service was very beautiful and impressive throughout.

From the house, the funeral cortege wended its way to the Union cemetery, where the services were concluded and where the interment was made. The pall bearers were James Schofield, John Keichline, E. T. Tuten, James Carson, Adam Hazel and W. H. Chandler.

Personal Pencilings.

Hon. S. R. Peale, of Lock Haven, is one of the prominent attorneys practicing in the common pleas court of Centre county this week.

Senator S. R. Peale, of Lock Haven, and J. M. Blanchard, Esq., of Bellefonte, are prominent Tyrone visitors to-day. They are attorneys for the defendents in a suit which will come up in the Centre county court this week, which is brought by a Mrs. Peters who was hurt in a pay car accident at Snow Shoe Intersection on the Bald Eagle Valley railroad about a year ago.—Tyrone *Herald*.

Four Deaths in Tyrone.

Friday's Tyrone *Herald* chronicles four deaths of citizens of that place, namely: Samuel J. Marks, aged 74 years; Mrs. R. Waring, aged 72 years, an old Centre county lady whose sister and brother, Mrs. Drucilla Hess and and Daniel T. Wieland, now reside at Linden Hall; Mrs. Jane E. Guyer, aged 76 years, relict of the late Rev. George Guyer, and Mrs. Mary E. Watson, aged 43 years. A quartette of people whose ages aggregate 265 years.

Got a Verdict of $8,500.

The case of Mrs. Peter vs. the Bald Eagle Valley railroad company was settled this week without going to trial, the company agreeing to pay the plaintiff $8,500, the costs and doctor's bill. Mrs. Peters had sued for $20,000 damages for injuries received at Snow Shoe Intersection, by being struck by the pay train about one year ago.

Will Ask for an Advance.

At the miners' meeting held at Houtzdale Friday it was resolved to appoint a committee to wait on Mr. Berwynd, who expects to come to Houtzdale soon, or in the event of his not coming, the committee will go to him at Philadelphia and ask for an advance of five cents a ton.

—Lowell H. Meyer, the musician, died at his home in the brick row on N. Spring street, this morning about 9 o'clock. The direct cause of his death is not known. No arrangements for the funeral have yet been made.

AT THE Y. M. C. A.

Some Interesting Items About That Organization.

General Secretary R. R. McBurney, of the New York City Association (Central Branch) received a letter a short time ago, and upon opening it, found enclosed a five hundred dollar bill, to be used for current expenses. The modest donor withheld his name, but the record has been made out and he (or she) will receive due credit at the final reckoning. Meantime there are a few other associations throughout the country just as needy as New York in the matter of their current expenses especially the Bellefonte association. Such a surprise would be a great Godsend, even though it might be a bill of considerable less value than the New York association was so fortunate to receive. Test it once.

***

"Secretary Jordan, of the Bangor, Me., association recently received a message from a prominent and wealthy business man of the place, asking him to call at his office. On his responding to the request the gentleman spoke in a very complimentary way of the association and the quality of the work it is carrying on, saying as he concluded his remarks. This will show you how much I think of you: use this money as you deem best, handing Mr. Jordan a check of $1,000." The above goes to prove that there are men watching the association work to see what good there is in it, and weighing carefully the amount of good being done, but in Bellefonte there are several who are watching the association with minds extremely prejudiced by the history of the association as it was years ago. What right has any person to judge the present work, when they have not stepped a foot in the building within the last two years. None whatever.

***

Dr. T. L. Cuyler made a remark full of pith and meaning, on which young men may well ponder, that "what a young man earns in the daytime goes into his pocket, but what he spends in the evening goes into his character."

***

Don't get mad, if within a few days you are asked by some one of the Finance committee, to give something toward the support of the work in this community. In the meantime think about it; and best of all talk with God about it.

A Big Cut of Lumber.

The DuBois Courier says it has been the custom at the DuBois mills to make a run one day some time during each season and yesterday was that day for the season, and the following unparalled record was made:

Lumber	325.390	feet
Lath	60,000	
Box boards	32,000	

This out beats any previous record made since the big mill was built about twenty years ago. The largest days work previous was 323,000 and it was considered marvelous. The sawing yesterday was done by a gang, a circular and a band saw and eighty-eight men were employed on the mill and pond and fourteen in the yard.

Found Dead.

Daniel Shaffer was found dead in bed Friday morning by his wife at their residence on South Jones street, Lock Haven. The deceased had been ill for several months with dropsy. Last night Mrs. Shaffer had been attending to his wants, and being tired and worn out she, at her husband's solicitations, laid down beside him about 3 o'clock for a few hours' rest. When she awoke it was after 5 o'clock and turning around found her husband cold in death. The deceased was a plasterer by trade and was 55 years old. He is survived by his wife. His remains were taken to Mount Joy for interment.

Proposed Senatorial District.

The senatorial reapportionment bill takes Clinton from Centre and Clearfield and places it with Tioga, Potter and Cameron, the four counties making the Twenty-fifth district. Other neighboring counties are assigned as follows: Twenty-sixth Lycoming, Sullivan and Wyoming Twenty-seventh, Union, Snyder, Mifflin, Juniata and Perry, Thirty-first, Cambria and Blair, Thirty-third, Huntingdon and Franklin; Thirty-fourth, Clearfield and Centre.

Marriage Licenses.

Edmund B. Rankin and Anna J. Stott, both of Bellefonte.

George H. Weight, of Benner township, and Cora Brungart, of Salona, Clinton Co.

Herbert S. Allman and Nannie M. Houser, both of Houserville.

James A. Hatch and Mary L. Barchfield, both of Philipsburg.

—Mr. Samuel Taylor, of this place, is preparing a beautiful souvenir of Bellefonte and its surroundings and will have it ready by time of the centennial celebration, when it will be placed on sale. It contains views of the principal buildings and places of interest in Bellefonte, and also views at Hecla and Hunter's Parks. It will be a souvenir in every way worthy of the occasion. When you are in search of rare relics of Bellefonte's centennial be sure to get a copy of this exquisite and artistic booklet.

ABSOLUTELY PURE

THE CENTENNIAL A GO.

Enough is Now Known to Insure It A Big Success.

An enthusiastic centennial committees meeting was held in the arbitration room of the court house Friday evening and various reports were received which are enough in themselves to justify the assertion that the centennial celebration of the borough of Bellefonte will be a pronounced success in every way. The Finance committee made a favorable report; which, however, we do not intend shall be understood as there already being enough money subscribed for the centennial, but that there are hopes of raising enough. The amounts subscribed by the parties already seen, and the hope of what can be gotten from those yet to see, is a safe foundation on which to build good hopes of a rousing celebration.

The committee appointed on industrial exhibit, made a very favorable report. Already there have about thirty business men and houses in the town signified their intention to prepare a float, while almost as many more have about half promised to do so, and the outlook, therefore, is very good for an unusually large parade of industrials.

The committee on fireworks reported negotiations pending for one of the grandest exhibitions of pyrotechnics ever seen in Central Pennsylvania; which, in itself, will draw thousands to Bellefonte to see. The committee on printing have already ordered and will soon have ready to put up two hundred handsome three-sheet posters announcing the approaching event. The committee on transportation reported that the railroads would give about anything asked and would make all necessary preparations to transport the largest crowd ever seen in Bellefonte. The committee on relics have been hard at work and this feature alone will be worth the while of every man and woman in Centre county to come to Bellefonte to see. It is intended, if it can be secured, to engage the armory and fit it up as one vast museum of curiosities. Every person in Centre county who has any thing ancient is invited to place it on exhibition at that time. Everything will be well taken care of and promptly and properly returned to the owners. Among the many organizations which will be invited and are expected present, will be the Clearfield cadets, a new organization of some sixty young men in which Charles T. Noll is First Lieutenant. All in all, there is now good hopes of a glorious time and our people want to take hold of the matter in earnest.

Change of Time.

There will be a new time card on the Beech Creek railroad May 12, when important changes will be made. The morning train east will run two hours earlier than at present, reaching Williamsport at 10.20 a. m. and making direct connections with the Philadelphia and Reading railroad through train for points, leaving Williamsport at 10.30 a. m. The evening train east will start from Patton later and, drawing through sleeping car from Clearfield, will reach Williamsport about the same time as at present. The morning train west will not be changed, but the evening train west will run thirty minutes earlier than now, leaving Williamsport at 4 p. m. and arriving at Mahaffey about 9.30 p. m. Time cards will be ready for distribution on Saturday, May 11.

LETTER LIST.

The following letters remain in the Bellefonte P. O. uncalled for May 6, 1895.

John Beaver, G. E. Boak, Maude E. Denter, Miss Anna Dean, Miss Sybilla Frederick (2), Harry Finley (3), C. H. Foulks, Miss Minnie Marshel, Mrs. Rachael Marks, Mrs. John Martin, Mrs. W. T. Miller, Mrs. Jennie Murphy, E. G. Osmer, Samuel Shaffer, Miss Della Heckman, Wm. Seibert, Wm. H. Jackson, Mrs. Nellie Johnson, J. N. Weiland, Geo. L. Thompson, James Worrell.

When called for please say advertised.

DAVID F. FORTNEY, P. M.

The Band Booming.

Prof. Joseph H. Feehrer, the veteran band teacher, arrived in Bellefonte last evening. He comes to give the band some finishing touches and fine points prior to Decoration day and the centennial, on which occasions the boys expect to eclipse all their former efforts. The band is in fine shape now, every instrument being filled; and, under Prof. Feehrer's direction, it will be able to hold its own with any band in the county.

Two More to Come.

The last two steam fire engine companies to accept the invitation to be present at the Firemen's Convention in Bellefonte June 5th and 6th are the Union, of DuBois, with 40 men and band, and the Hope of Philipsburg, with 60 men and band. Both companies will enter all contests for prizes. And "still there's more to follow."

For Decoration Day.

The following card has been issued from headquarters of Gregg Post, No. 95, G. A. R., Dept. of Penna.:

COMRADES.—Preparations are being made by Gregg Post, 95, for the usual observance of Decoration Day, May 30th.

Program will be given by Committee in proper time.

All comrades are expected to be present on the occasion, and all soldiers, sailors and citizens, civic societies and school children are respectfully invited to unite with us in this grand memorial to pay our annual tribute of respect and place floral offerings on the mounds of our nation's dead.

As the years roll by the record of Death increases, we miss the familiar presence of many who have joined the grand army above.

It is fitting that we who are left should stand shoulder to shoulder as in the past, to show proper respect and commemorate the services of our gallant comrades, the principles for which they fought, for which they died, and o'er their graves renew our pledge of patriotism and devotion to be the cause of human liberty.

Unite with one and all to do honor to the

"Immortal names
That were not born to die."

COMMANDER POST No. 95.
F. PEEBLES GREENE, Adjt.

The Way They All Talk.

Chronicle, Wappinger's Falls, M. Y., July 27: "Chas. Lee's famous London Circus visited town, Wednesday, pitching its six tents on Warren avenue. The noon parade, with two bands of music, beautiful caparisoned horses and diminutive ponies, the gaily attired riders, golden wagons, cages and chariots, donkeys, clowns, etc., formed a most fascinating spectacle. The afternoon and evening performances were both excellent. The acrobatic feats were particularly well performed. The many fine features brought forth frequent bursts of applause. No discontented remarks were heard at the close of either performance, for the public had more than received its money's worth. Any time the Big London visits us again, it can do so with the assurance that all its seats, reserved or otherwise, will be taken at an early hour."

This monster exhibition will appear in Milesburg on Monday, May 13th, afternoon and evening. Admission, only 25c.

Will be Held in Pittsburg.

Our townsman, Gen. James A. Beaver, is a delegate to the general assembly of the Presbyterian church will convene in Pittsburg on May 16th, the twenty-fifth anniversary of the reunion of the old and new school churches. Important business will be transacted, among which is the Briggs case, the relationship of theological seminaries to the general assembly, and the future attitude of the church to the graduates of Union theological seminary, involving the question of the fitness of men who have come under the influence of Dr. Briggs. The election of a moderator to succeed Dr. Mutchmore, of Philadelphia, will elicit interest, the conservatives presenting Dr. Robert Booth, of New York city, and the liberals either Dr. Beecher, of Auburn, N. Y., or Dr. George Alexander, of New York city. The body may be expected to stand by the standards of the church as in the past.

Selling on the Instalment Plan.

In a recent decision the supreme court of this state has re-affirmed the legality of selling goods on the installment plan. Articles leased under bailment for use remain the property of the lessor until the final payment is made in accordance with the terms of the lease, and cannot be seized by creditors of the lessee for his debts. This applies to sewing machines, organs, pianos, stoves, bicycles, wagons, horses and most anything else that can change hands without changing the character of the article in any way.
